BUILDING COMMUNICATIONS

Behind each of our products there is a genuine passion. Passion for research. Passion for development. Passion for design and cutting-edge technologies. Passion for excellence. And a shared commitment of putting technology at the service of all.

But there is more. There is a way of doing business that seeks diversity, multiplies the opportunities and believes in partnerships. A corporate style that focuses on clean manufacturing and believes in young talent.

All these values give life to our brand. They are our pure essence. And they lead our way.

**With Fermax, it's all about technology. It's all about people.
It's all about you.**

BUILDING COMMUNICATIONS

Fermax is a company of Spanish origin specialized in designing, manufacturing and commercializing audio and video door entry systems, with its headquarters based in Valencia, Spain.

Founded by Mr. Fernando Maestre in 1949, Fermax has always encouraged creativity and entrepreneurial spirit to develop the most innovative advance communications system solutions for the building.

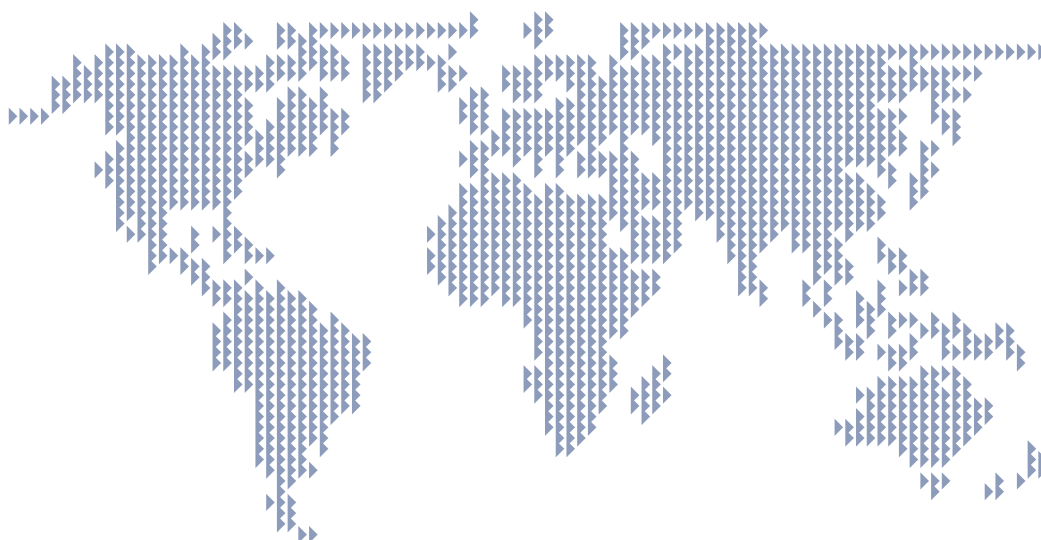

Fermax, throughout its 67 year history, has known how to develop its cutting-edge products, while keeping the essence of its corporate identity unchanged. The values of specialization and a family business, along with a passion for technology and design, have guided the firm to its prominent positioning amongst the world's most important brands.

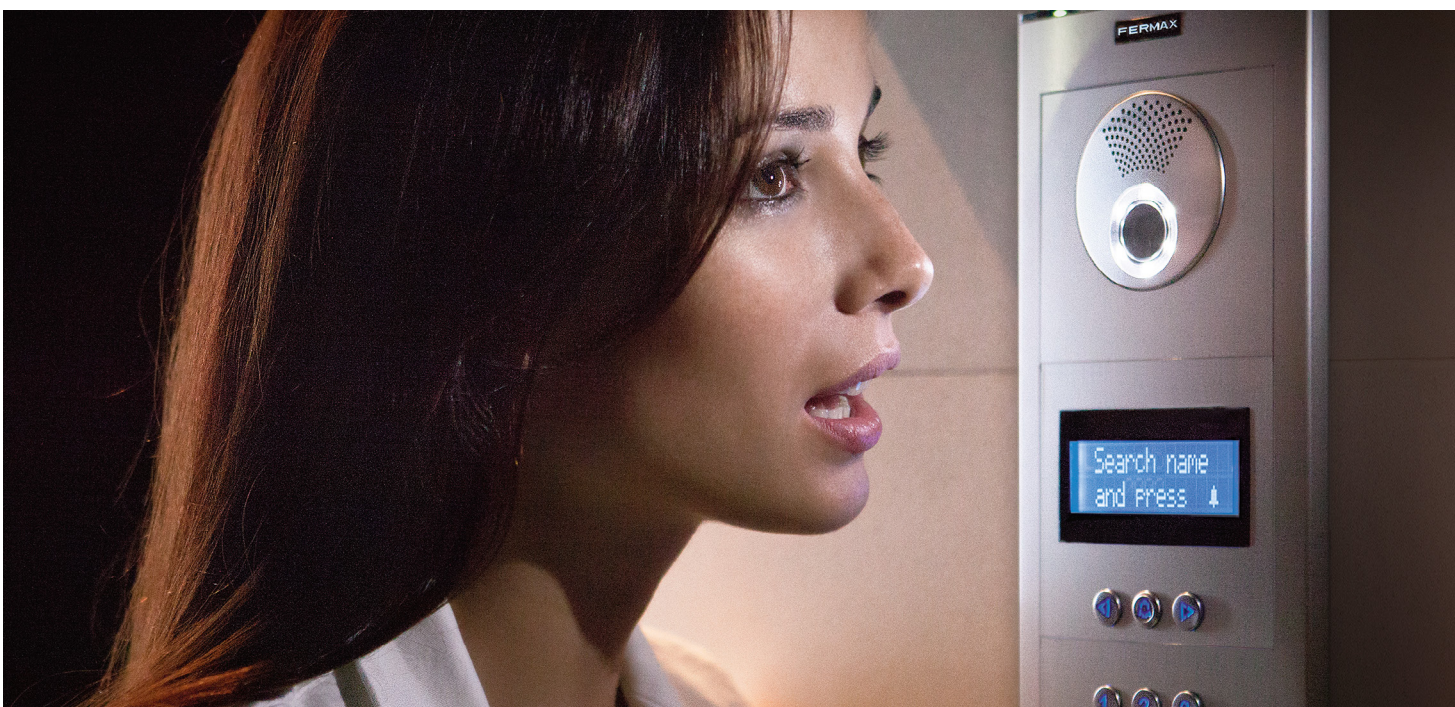

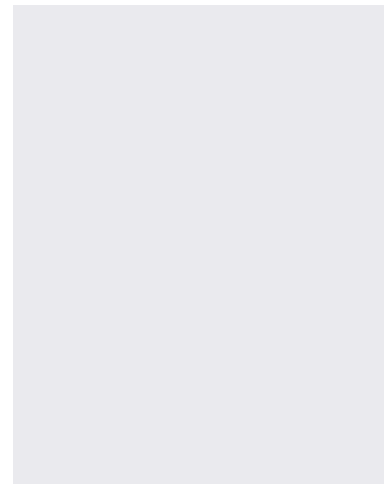

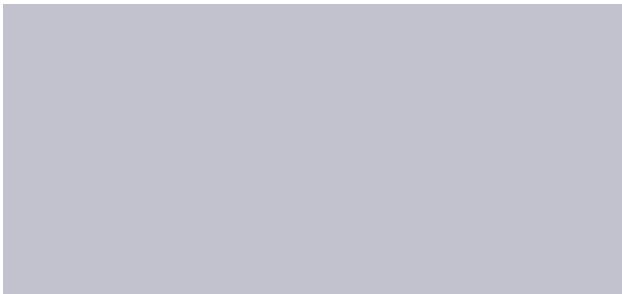

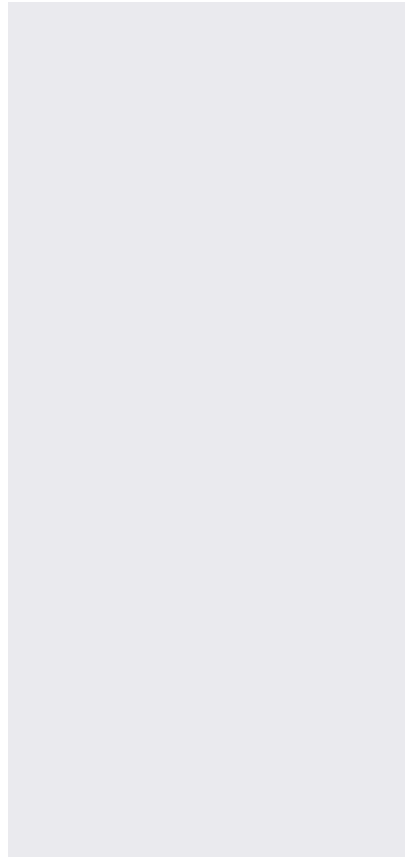

With a decisive customer focus, the team is proud to transmit the Fermax values in the 14 countries where the company has its own subsidiaries or representative offices,

as well as in the rest of the 70 countries where Fermax products are sold through a well-established network of distributors.

Today, the company continues to work towards facing future challenges, creating new communication lines and making the video entry system the technological heart of the home. The inclusion in our portfolio of new lines of business such as fully digital video entry systems, home automation or energy-efficient solutions enables the company to supply the most complete range of products to meet the specific needs both of professionals and end-users. Whilst maintaining the firm's commitment to being an excellent company in the sector, setting the highest quality standards for both products and processes.

Participation in benchmark projects worldwide is the main guarantee of success for Fermax over the years. They make up our past and present, and will continue to be our paradigm in the future.

VEO

by FERMAX

Just essential

The new Fermax monitor is even simpler and more functional. A synthesis that takes design and performance to their most essential expressions, in a monitor specially designed for those users who decide to take the leap into video.

A new member in the home for those seeking comfort and ease when communicating.

VEO is a home essential, an element offering security, beauty and inspiration which provides a balanced space where it is placed.

Full digital. Colour 4,3"
TFT screen.
OSD Menu.
5 melodies.
Additional functions.

VEO
by FERMAX

FERMAX

Kit way

The new Way Kit includes a 7" monitor that allows you to manage, through its capacitive touch screen, a lot of advanced functions. Capture images of your visits or record them, access the call record, activate the "Do not disturb" function or even establish communication with other monitors already installed within the residence.

PLUG&PLAY. The monitor and the door entry panel are already programmed and ready for installation!

THE OUTDOOR PANEL. The Way kit includes a video door entry panel made of zamak metal with high sensitivity colour CCD camera as standard. Surface installation.

THE MONITOR. A digital 7" TFT colour monitor with capacitive touch screen that facilitates an intuitive use.
3 shortcut buttons for quick access without using the screen.

Kits for 1 or 2 residences
Technology: 2 wires non-polarised

Do it your way

Way kit features

- 7" TFT capacitive touch screen.
- Sleek and resistant panel made of zamak. Hood included.
- Image memory.
- Intercommunication between monitors.
- Call record with images.
- 20 different ringtones.
- Video recording (with micro SD card. Not included in kit).
- "Do not disturb" function.

Intercom

Establish communication with other monitors installed within the residence.
In the 2 apartments kit the option to call another apartment is available as well.

Playback

After 3 seconds the monitor automatically records a video (if there is a micro SD Card installed) or a picture (if there isn't) of the visitors. While answering, you also have the option to manually take a snapshot of your visitor. The recorded videos/pictures from the outdoor panel will be played on the screen.

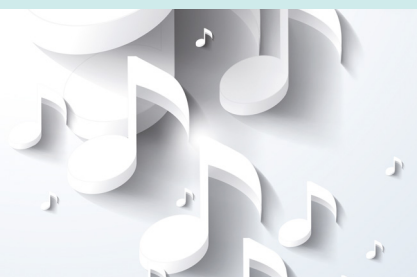

Capacity:
118 pictures
(without micro
SD Card) or
audio&video
record up to
32G (with micro
SD Card).

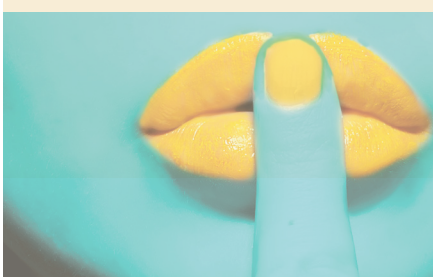

Settings

Brightness, contrast, selection of ringtones, date & time, call volume for day time and night time, language selection (16 languages), etc.

Do not disturb

Take your time to relax.
Activate the Do not Disturb for
1 HOUR, 8 HOURS or PERMANENTLY.

Call record

All the calls from panel-to-monitor, monitor-to-panel and between monitors will be recorded and can be reviewed afterwards.

FERMAX

Fermax presents the new generation of our most awarded monitor, SMILE monitor

"Improved inside, unbeatable on the outside". This new version of the monitor sticks to the widely praised and award-winning design, but at the same time, offers greater responsiveness, an improved and simpler configurator and reduced consumption.

Smile comes in two different sizes: with 7" or 3,5" TFT COLOUR screen.
Both them can be installed to a surface or flush-mounted.

CHOOSE YOUR COLOUR

Depending on the style of each home, you can choose between different colours: white, absolute white, silver or black.

1. WIRING FLEXIBILITY

3. SIMPLICITY OF INSTALLATION

10. ALWAYS NEAR YOU

ACCESS CONTROL

Fermax expands its ACCESS CONTROL range with advanced autonomous systems called **AxesKey**, allowing simpler management of communal installations, new proximity technologies and safer radiofrequency (RF).

A new advanced and centralized system, **IP_Axes**, solves both centralised and distributed installations with IP connectivity and a single completely intuitive software, with new features such as hands-free operation, remote opening sitemap, sending notices by email, etc.

AxesKey

Wiegand RF receiver. Interface 868 MHz

Applicable to roll-up doors, swinging doors, sliding doors, sectional doors, drop doors, fast, glass, gates and revolving doors.

- Versatile
- Reliable and greater sensor distance
- More secure
- Practical

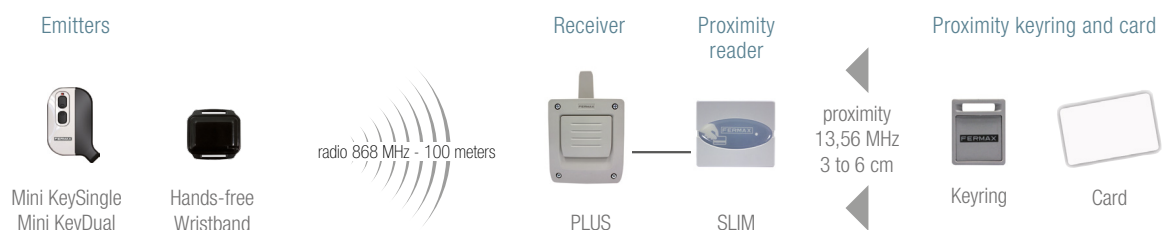

AxesKey Plus

868 MHz receiver with connection to proximity readers

Applicable to roll-up doors, swinging doors, sliding doors, sectional doors, drop doors, fast, glass, gates and revolving doors.

- Versatile
- Reliable and greater sensor distance
- More secure
- Easy to add more emitters
- Simplified management
- Flexible and fast programming

IPAxes

ON-LINE access control system

Applicable to roll-up doors, swinging doors, sliding doors, sectional doors, drop doors, fast and gates doors.

Central Access Control ONLINE for 2 readers.

- PC connection via TCP/IP.
- Module connection expansion with RS485.
 - IP AXES 4 expansion module: 4 additional entries/exits.
 - IP AXES I/O expansion module: 8 additional entries/exits.
 - Up to 10 expansion modules for each IP AXES 1_2.

Up to 64 IP AXES 1_2 connected by network.

IP AXES 1_2
IP AXES 4
IP AXES I/O

Dual technology programmable 868 MHz emitters KEYDUAL or KEYSINGLE

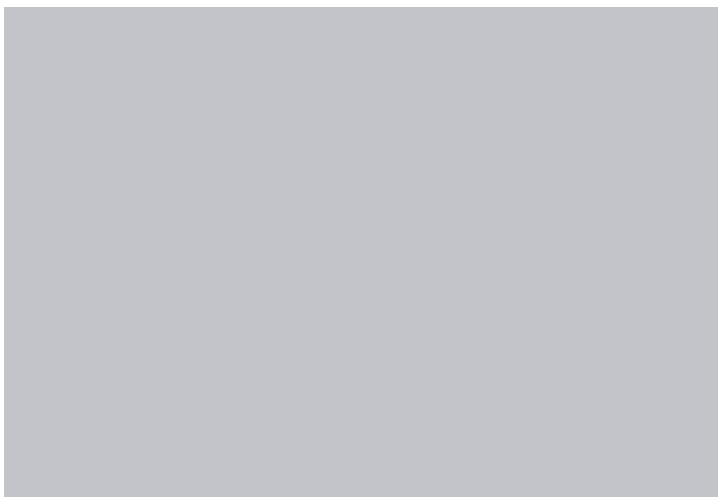

Evolved is the name of FERMAT DUAL-TECHNOLOGY emitters.

These emitters have a functional durability. At the same time they are programmable, these emitters are also proximity elements, permitting the management of door opening by radio or proximity.

SLIM. 13,56 MHz proximity reader

In the FERMAT proximity readers range, there is an interior's solution to 13,56MHz with exits L-BUS, S-BUS and Wiegand.

8829	Joining bolts set.
3255	Line adaptor (2 units).
4800	Power supply 12Vac/1,5A. DIN 4.
4812	Power supply 18Vdc/1,5A (2uds.).

4957 DUOX DIGITAL KIT

7364	DUOX DIGITAL COLOUR VIDEO CITY panel. Panel S7: 130x341.
8857	Flush box S7: 115x328x45.
3244	DUOX filter (2 units).
3255	Line adaptor (2 units).
4800	Power supply 12Vac/1,5A. DIN 4.
4812	Power supply 18Vdc/1,5A (2uds.).

BUILDING KITS INSTALLATION: UTP CAT5 / 5 WIRES / 3+COAX

Kit includes: coded VDS outdoor panel with COLOUR camera, flush box, power supply for up to 40 homes in video or 80 in audio (ref.4830) and a 12Vac power supply (ref.4800) to drive the installation's electric lock. Another power supply (ref.4830) must be added for every additional 40 monitors or 80 telephones.

4979 VDS DIRECT KIT

Same as kit ref.4956 but with VDS panel (ref.7305) and power supply ref.4830 and ref.4800.

4915 VDS DIGITAL KIT

Same as kit ref.4957 but with VDS panel (ref.7299) and power supply ref.4830 and ref.4800.

4+N ANALOGUE TECHNOLOGY

5 wires

4860 1/W 4+N CITY AUDIO KIT

Includes

- 4845 1/W 4+N CITY panel and flush box (ref.8948).
Panel S1: 130x128.
Kit flush box: 115x114x45.
3393 4+N LOFT BASIC telephone.
4800 Power supply 12Vac/1,5A-DIN4.

2nd Audio access

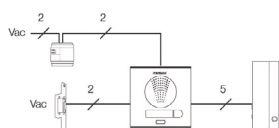

- 4845 1/W audio panel and flush box.
8819 Chalet switcher.

Accessories

- 30711 Door lock 450N-S (12Vac).
8948 Kit flush box S1.
7061 Surface box S1. 130x128X33.
9191 Decorative frame S1: 211x210.
8400 Hood S1: 135x130.
3380 Telephone decorative frame. 200x240.

Extensions (without extra power supply)

3 LOFT telephones (ref.3393). For more than 4 telephones, 1 power supply ref.4812 and 1 call multiplier (ref.2340) is required.

4862 2/W 4+N CITY AUDIO KIT

Same as kit ref.4860 but with 2 LOFT BASIC 4+N telephones (ref.3393) and 2/W 4+N CITY KIT panel (ref.4846).

X DUOX TECHNOLOGY

SKYLINE
CITYLINE
CITY CLASSIC
MARINE

OUTDOOR PANELS

ABSOLUTE VERSATILITY. MODULAR COMPOSITION

SKYLINE is the perfect door entry panel for contemporary installations that require multiple integration systems: information, communication and access control.

It's versatility makes it the only panel capable to respond to any requirement which may arise in any residential, industrial or service sector project.

It's modular design and versatility provide TOTAL CREATIVE FREEDOM to create any imaginable combination.

FERMAX guarantees the immediate supply of SKYLINE products (except stock breaks or fault of the company).

COMBINES

It consists of different modules: 8 frames of different dimensions, audio-video modules, push button modules, digital modules, access control readers, information modules and other accessories.

ENHANCES

SKYLINE modules include the most cutting-edge technologies and functionalities, such as the OneToOne module or the fingerprint reader module.

The modules are smart system linked, facilitating their repair and maintenance, as well as the subsequent inclusion of more cutting-edge equipment or new modules.

RESISTS

SKYLINE manufacturing materials – anodized aluminium profile, chromed zamak push buttons and reinforcements, polycarbonate in transparent elements, stainless steel inner grids, etc - are chosen for their beauty and maximum resistance to bad weather conditions.

PROJECT

- SKYLINE consists of 8 different-sized frames where different modules can easily be fitted.
- Modules come in 2 sizes, designated **V** and **W** (**W** is twice the size of **V**).
- The audio and video modules are available in all FERMAX technologies.
- Once technology has been selected, the use of these modules with the appropriate frames, allows for the set up of the panel necessary for any installation.

COMBINATIONS

The combination of frames and modules depend on the number of apartments at the building and the accessories needed.

There are two module sizes: V and W (W is twice the size of V).

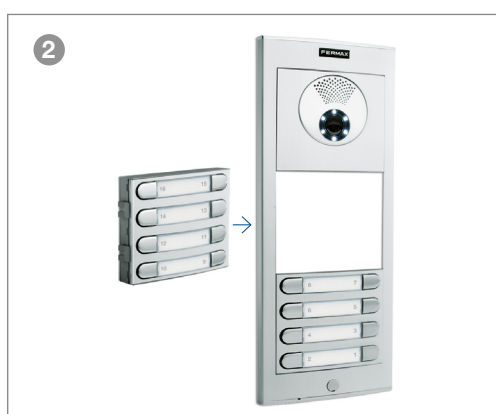

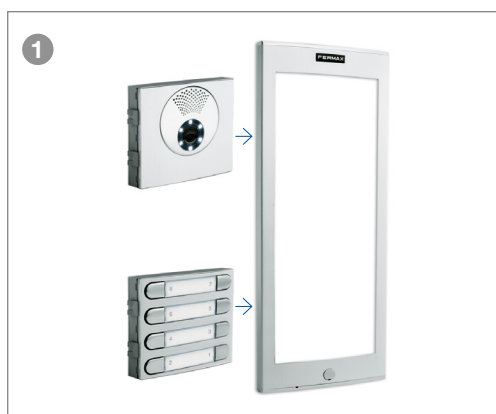

V = 105,2x47,5mm

W = 105,2x95mm

Frames are designated according to their V module inclusion capacity.

Module assembly sequence

ASSEMBLY

The module-frame clip-on assembly system is very simple and effective.

The modules fit perfectly into the profile.
Watertight tapes prevent water and dirt to get in.

Once the panel is assembled, the different modules are connected to each other.

The final result is a compact and robust equipment set, just like a monoblock panel (IP43 IK7).

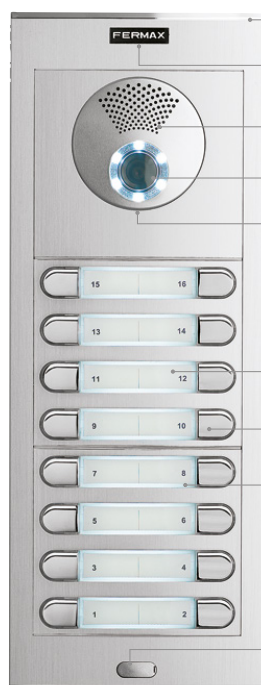

The push buttons contacts and digital keypad are watertight, assuring their operation and reliability.

Proven in laboratory trials to be able to resist 100,000 pressings in 48 hours.

TECHNICAL FEATURES

DUOX VIDEO PANEL WITH PUSH BUTTONS

- Zamak injected profile tops.
- Sliding logo. Concealed screw bolt fixes panel to flush box.
- High power and performance **2W amplifier**. Elliptical loudspeaker.
- COLOUR CCD camera with optical of 3,7mm.
- Compact audio-video module. Frontal module in aluminium and inner stainless steel grid.
- Extruded aluminium curved-convex profile. Anodized finish.
- Lighting for night vision by LEDs.
- Zamak injected call button with chromed finish.
- Polycarbonate card slot. Frontal card slot access. Outdoor resistant labels.
- Concealed screw bolt fixes panel to flush box.
- High sensitivity microphone.

REAR VIEW

- Voice synthesizer as standard. "The door is open. Please, close the door behind you".
- Adjustment of conversation's volume control from monitor, outdoor panel and synthesizer message.
- Electronic circuit manufactured in SMD. **DUOX connections:**

B,B: Bus DUOX	Power supply telephones/monitors, dates, audio and video.
C, NO, NC	Relay contacts, 2A@30Vdc (door lock connections).
+12	Output 12 Vdc - 250mA.
BS, -	Egress button.
S, -	Door sensor input.
+, GND	Not available yet.
- Smart connection between modules. Extension call modules are not required.
- Push button with watertight contacts. Able to resist 100.000 pressings in 48 hours.
- Laterally folding hinges.

1. FRAMES

Frames are named according to the capacity of the V modules they can incorporate.

DUOX/VDS

SKYLINE PANEL ACCESSOIRES

FLUSH BOX

Made in aluminium and zamak, with folding hinges.

SURFACE BOX

For those cases where a hole in the wall cannot be made for the flush mounted box.

HOOD

To protect the outdoor panel when due to its location it may be affected by external agents such as rain, snow, etc.

ANGULAR COMPLEMENT

Necessary when the panel must be fitted in a point hard to access, for example behind a gate.

MODULAR DECORATIVE FRAME

In replacements, allows the cover up of the hole left by the old panel. It is also an aesthetic element. Modular assembly.

MODULAR FRAME.

NEW

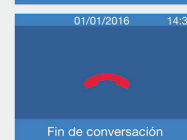

DUOX EXTRA DIGITAL DISPLAY W

The EXTRA DIGITAL DISPLAY includes a 3.5" TFT with high luminance at outdoor environments, simplifying their use and increasing the performance of the door entry panels:

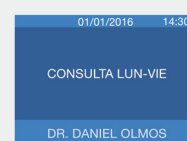

- Integrated OneToOne: Incorporates information about the call status: calling, in conversation, door open, or channel busy.
- Showing images: Up to 5 personalised images can be shown. Up to 10 user images can also be included.
- Showing messages: On the EXTRA display, personalised messages can be shown for each user or for the building.
- Presence Detector: When a visitor presses the outdoor panel, the DIGITAL EXTRA DISPLAY presence detector activates the TFT, inviting the user to place the call.
- Alphanumeric keypad and date and time indicator.
- Compatible with Wiegand-26 and Data Clock.
- Can be managed from the PC and features an RS-485 connection. Can be combined with panels of up to 8 buttons.
- It stores up to 999,999 addresses for the DUOX system.

MARTA BARBERÁ

OneToOne

Showing messages

Showing images

The KEYPAD module allows to call the homes by keying the allocated door code. It also acts as an access control system, activating the door release when a given code is entered (depending on the technology).

7447 DUOX/VDS/MDS DIGITAL KEYPAD W

7439 DUOX/VDS/MDS DIRECT KEYPAD W

7460 MDS DIGITISER V

Necessary in MDS-CITY and MDS DIRECT panel combinations. OneToOne functions included.

ref. 7442

ACCESS CONTROL MODULES

For more information, see "Access Control" section.

7438 MEMOKEY W

Backlit stand-alone keypad with signal LEDs. Activates the door release when a code up to 6 digits is entered. Admits 100 different codes that can activate 1 or 2 relays. Power supply 12Vac/Vdc.

7453 AC PLUS/MDS KEYPAD W

For centralized systems with MDS Central Unit ref.2405 or ACPlus ref.4410.

7457 AC PLUS DIRECT KEYPAD W

For access control combinations: keypad with proximity reader .

ref. 7438

The following SKYLINE access control modules can be set up in a stand-alone, centralized mode (MDS central unit ref.2405) or ACPlus (Central Unit ref.4410). The number of users in centralized mode depends on the central unit.

6936 FINGERPRINT READER W

Indoor/outdoor. Maximum capacity of 4.500 user (stand-alone). Includes an informative display and signal leds. Includes a built-in proximity reader to boost security and a remote infrared keypad for programming. 12Vdc/Vac.

ref. 6936

7440 PROXIMITY READER V

Door opens when a proximity card is shown. Only authorized cards will activate the device. No physical contact is necessary. Capacity: Up to 400 cards (stand-alone).

cityline

MONOBLOCK DESIGN

Cityline is the luxury audio and video door entry panel from FERMAX.

Its monoblock concept and customised manufacture allow for a wide range of solutions for door entry panels.

CUSTOMISED MANUFACTURE

There are 5 different panel dimensions named "series", all with the same width but with different heights and push button capacities.

Each series consists of a large range of single or double push button solutions with the possibility to include: cardholders, informative screen modules and proximity reader.

With CITYLINE it's possible to select the perfect design for each installation.

VOICE-IMAGE WHERE BEFORE THERE WAS ONLY VOICE

CITYLINE maintains total compatibility with its predecessor (CITYLINE CLASSIC), ensuring its replacement and repositioning.

This line includes video and audio functions in the same module, allowing for the renewal of the CITYLINE CLASSIC audio entry panel for a CITYLINE video entry, keeping the same measurements and using the same flush box.

DURABILITY AND RELIABILITY OUTDOORS

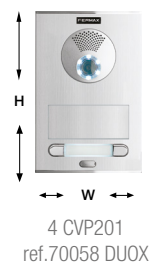

Manufactured in a highly weather resistant anodized aluminium profile (IP43 IK7). The push buttons and displays are chromed zamak, the amplifier façade in aluminium and the interior protected by a stainless steel grid.

Push buttons are watertight and tested in the most demanding conditions to achieve great durability and reliability.

1. PUSH BUTTON PANELS

HOW TO SELECT A PANEL

- Select the panel required according to the n° of apartments in the building. There are 5 series.
- The flush or surface box must be requested separately depending on the series.
- The amplifier may be DUOX, VDS or analogue (4+N). In case of DUOX and VDS amplifiers, extension call modules are required: 8-calls (ref.2008) or 16-calls (ref.2441).
- Colour camera as standard.

CITYLINE CODES	
4	Series number (defines its height)
C	Amplifier with colour camera.
V	With viewer.
P	With push buttons.
201	Distribution 2 columns x 1 row (2 pushbuttons).

cityline

The Cityline Digital Video door entry panel includes a COLOUR CAMERA as standard issue and a numeric KEYPAD to make house calls. For calling, once the door code is entered, press the bell to call the house.

INTUITIVE AND EASY USE

There are 2 panel models:

- **DIRECT panels:** They do not include a display and need a DIRECTORY to write the name of the residents and their allocated door codes. To call the apartment, enter the door code via keypad and press .
- **DIGITAL panels:** Select the tenant/door from the DISPLAY and press the bell key directly.

KEYPAD WITH MAXIMUM RESISTANCE

The metallic keys are made in zamak with permanent BACKLIGHTING illuminating the numbers in poor lighting conditions. Its robust design and airtight keys guarantee reliability and durability in any atmosphere.

LCD DISPLAY

High contrast, enables to view the names of the residents and the codes through a phone book type **DIRECTORY**. The display shows the communication status: calling, busy channel, etc.

The keys   allow to browse through the user and programming menu.

Once the door code is entered, press  to call the house.

DIGITAL EXTRA DISPLAY

DIGITAL EXTRA DISPLAY is available in DUOX technology, including a 3.5" TFT with high luminance at outdoor environments, simplifying their use and increasing the performance of the door entry panels.

COMPACT AUDIO-VIDEO MODULE

The MODULE has a powerful built-in high-performance (2W) AMPLIFIER with volume control to set the conversation level. A synthesized message - "The door is open. Please, close the door behind you"- is emitted while the door is opening. Opening time is adjustable from the keypad.

COLOUR CAMERA

Includes a highly sensitive CCD CAMERA with 3.7mm lens. Additional night vision lighting with 6 LEDs. A PAN&TILT system allows for the adjustment of the lens $\pm 10^\circ$, according to the panel position.

ACCESS CONTROL KEYPAD

Through the keypad it is possible to activate the installation's electric lock. DUOX and VDS digital panels can handle up to 350 codes/users (Digital) or 1 common code per panel (Direct). The MDS Digital panel can manage up to 1.020 users.

1. DIGITAL PANEL

The DIGITAL panels include a KEYPAD and DISPLAY. The keypad has access control function (350 codes).

Cityline Classic is the range of audio door entry panels for small buildings. It stands out for its design, versatility and curved-convex profile. There are 7 continuous profile series, all of them the same width but with different heights and button capacities.

FEATURES

- The **PANELS** are made of highly weather-resistant anodised aluminium. A cellular rubber waterproof seal, ensures perfect fitting of the panel in the wall, preventing water from getting in.
- Once installed, the tightening **SCREWS** are completely hidden by protection covers at the top and bottom. The screws are Allen type.
- The metal **PUSH BUTTONS** have a rounded shape, to keep with the curved profile of the panel. They can be double or single. The amplifier emits a confirmation sound when the button is pressed.
- The chrome finished buttons are protected against the weather by a thick chrome plating.
- The push buttons include a cardholder to place the name/ number of the resident. By pressing the pushbutton, the cardholder illuminates making easier to find the names even in complete darkness.
- The **AMPLIFIER** is manufactured in SMD (Surface Mounting Device) and subject to a process of tropicalisation to withstand the most adverse weather conditions. It has: front

button for lighting of card-holders, volume controls in both directions for optimum sound level free from feedback, call confirmation sound, sound synth in different languages, etc.

ACCESSORIES

ref.8820

Marine panel is a vandal-proof door-entry system made from stainless steel (2,5mm-thick). (IP 54 IK 09). AISI 316L type of stainless steel.

FEATURES

- Anti-vandal **PUSH BUTTONS**. The panels are made of stainless steel and with anti-lock system. Resist any impact. Cardholders available to customize each apartment.
- The panel is attached to the flush box by means of vandal-proof **SAFETY SCREWS** made of stainless steel. It is attached to the wall by means of self-expanding screws and plugs, to avoid warping.
- A cellular rubber **WATERPROOF SEAL** ensures perfect fitting of the panel onto the wall, preventing water from getting in.
- Both, the **CARDSLOTS** with push buttons and the display of the camera, are made of 6mm thick polycarbonate, resistant to high temperatures and to vandal actions.
- The SMD (Surface Mounting Device) **AMPLIFIER**, which has been subjected to a process of tropicalisation, is designed to withstand the most adverse weather conditions. A synthesized message - "The door is open. Please, close the door behind you"- is emitted while the door is opening. Available in 32 languages.

- The **CAMERA** (protected by a 6mm-thick polycarbonate) is equipped with lighting for low-light conditions. It has a PAN&TILT adjustment system to move the camera $\pm 10^\circ$ in any direction. It incorporates a 3.6mm wide angle lens.

1. PANEL WITH PUSH BUTTONS

Select the corresponding panel accessories. Flush and surface box must be requested separately. The indicated references include DUOX or VDS amplifier and COLOUR camera. For selecting 4+N technology, follow the "4+N MARINE AMPLIFIER COMBINATIONS" table.

In case of DUOX and VDS amplifiers, extension call modules are required: 8-calls (ref.2008) or 16-calls (ref.2441).

For the combination of 2 Marine panels of the same series, joining bolts are required between the flush boxes.

4+N MARINE AMPLIFIER COMBINATIONS:

2. DIGITAL PANELS

The MARINE DIGITAL panel includes a keypad to call the apartments by dialling the door number or the corresponding code.

- A DIRECTORY DISPLAY allows for the searching of the neighbours and their door number.
Includes a numeric keypad, simple and intuitive to use.
- Once the code is introduced, press the BELL KEY to call.
- The metallic keys are made of zamak.
- BACKLIGHTING illuminates the numbers in poor light conditions.
- Through the keypad it is possible to activate the installation's electric lock. The management of codes/users numbers depends on the model panel: 350 codes (VDS) and 1.020 codes (DIGITAL MDS with Central Unit ref.2405).

MARINE PANEL

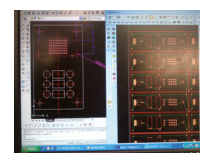

3. SPECIAL PANELS

FERMAX has a laser-cut machining line for stainless steel panels. This process allows us complete flexibility to make the Marine panel required, with optimum delivery time for the customised panel.

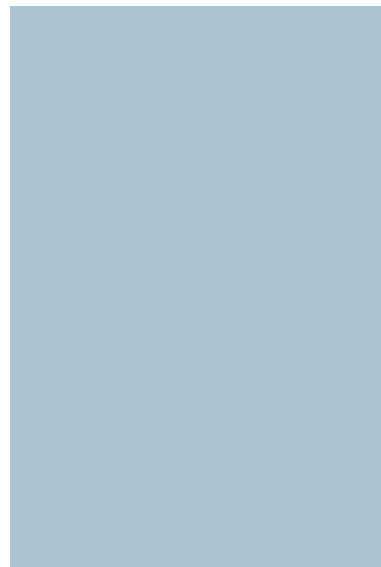

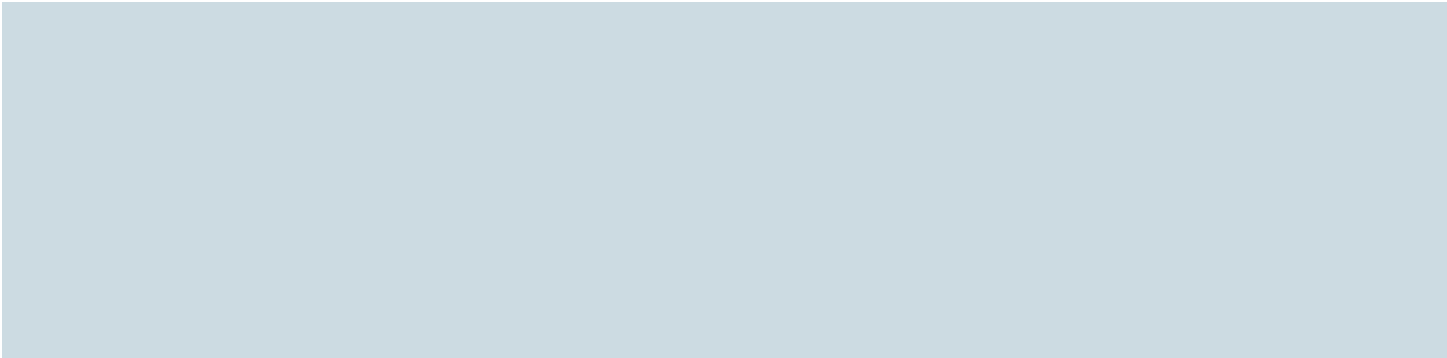

3172 MARINE SPECIAL PANEL

The following variations may be ordered:

- Panel with special formats and dimensions.
- Integration of access control modules and special combinations with amplifier, push buttons and other accessories.
- Logotype laser marking.
- House number and messages integration.
- Push buttons without card slot and free layout.
- Including backlighting.

SPECIALS

DOOR LOCK RELEASE

DOOR LOCK

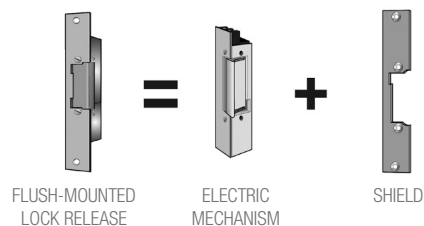

FERMAX LOCK RELEASE

An electric lock-release basically consists of an electrical mechanism and a shield or case, on the installation (flush-mounted or surface).

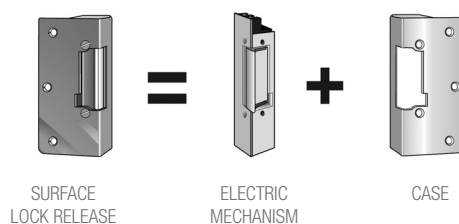

SERIES 2001

FLUSH MOUNTED

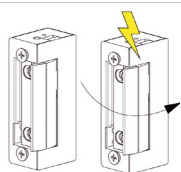

SURFACE

▶ OPERATING MODES

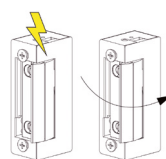

NORMAL OPERATION - N

Allow door opening while the lock is powered.

N	12 Vac activation
N-412	12 Vdc activation
N-424	24 Vdc activation

INVERTED OPERATION - N-500

Allows door opening while power to the lock release is off.

N-512	12 Vdc activation
N-524	24 Vdc activation

AUTOMATIC OPERATION - A

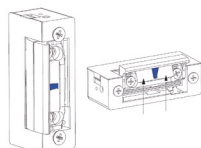

Ab (Sliding automatic) and Aa (Invisible automatic)

Enables door opening with a short electric pulse. The lock release is automatically blocked when the door is closed again.

A Automatic operation.

A	12 Vac activation
A-412	12 Vdc activation
A-424	24 Vdc activation

Ab Sliding automatic operation.

Lets you slide the automatic function with the MAX latch setting.

Ab	12 Vac activation
Ab-412	12 Vdc activation

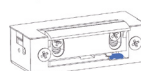

Aa Invisible automatic operation.

The automatic pin is suppressed to allow an easier fit to the mechanical lock. A very short electrical pulse is recommended.

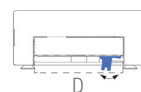

Aa	12 Vac activation
Aa-412	12 Vdc activation

ADDITIONAL OPERATION

- Unlocking level – D

The lock release with D in its description indicates the addition of a manual release lever which inhibits its function, which inhibits its operation, allowing free access.

ND Normal operation with release.

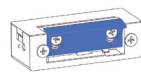

AD Automatic operation with release

CTC

- Built-in microswitch - CTC.

Allows monitoring of door status (open/closed). Suitable for security systems. Not available for MAX version.

MAX

- Adjustable latch bolt - MAX

Allows a perfect fit between latch and bolt in the lock, with a 4mm margin. To order a MAX lock release, please add an 8 to the end of the reference of the compatible lock.

For more information about door locks, see current "Lock release catalogue".

FUNCTIONS (VDS)

- Colour TFT screen, available in 7" and 3,5".
- Activates/deactivates the communication with the outdoor panel.
- Door opening.
- Access to MENU by pressing during 5 sec. A quick keystroke (1 sec.) activates the invisible keypad to access the additional functions.
- Activates the panel camera manually.
- F1-F2: Activates additional functions: stair light switching, 2nd door opening, etc.
- Call status information is displayed on screen.
- Allows for the installation of a CCTV camera and view the image via the monitor.
- VDS technology.

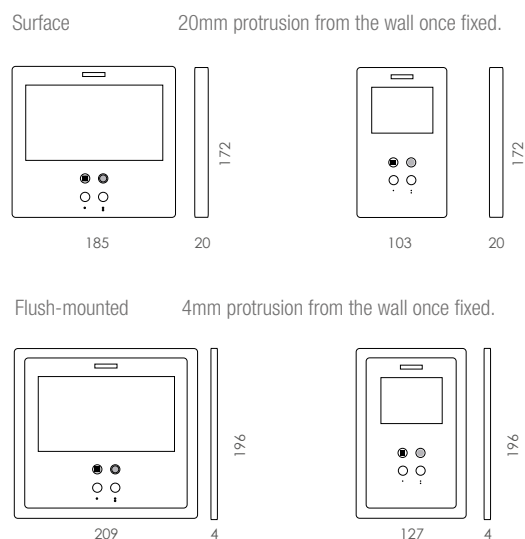

ADDITIONAL KEYPAD

Smile includes an additional keypad which remains invisible until it is activated allowing for the programming of it as direct accesses to the functions you want to establish as "favorite".

INTUITIVE OSD MENU

The OSD menu allows for the browsing through the screen by means of intuitive interpretation of the graphic icons, achieving the maximum performance from the monitor features.

DIMENSIONS / INSTALLATION

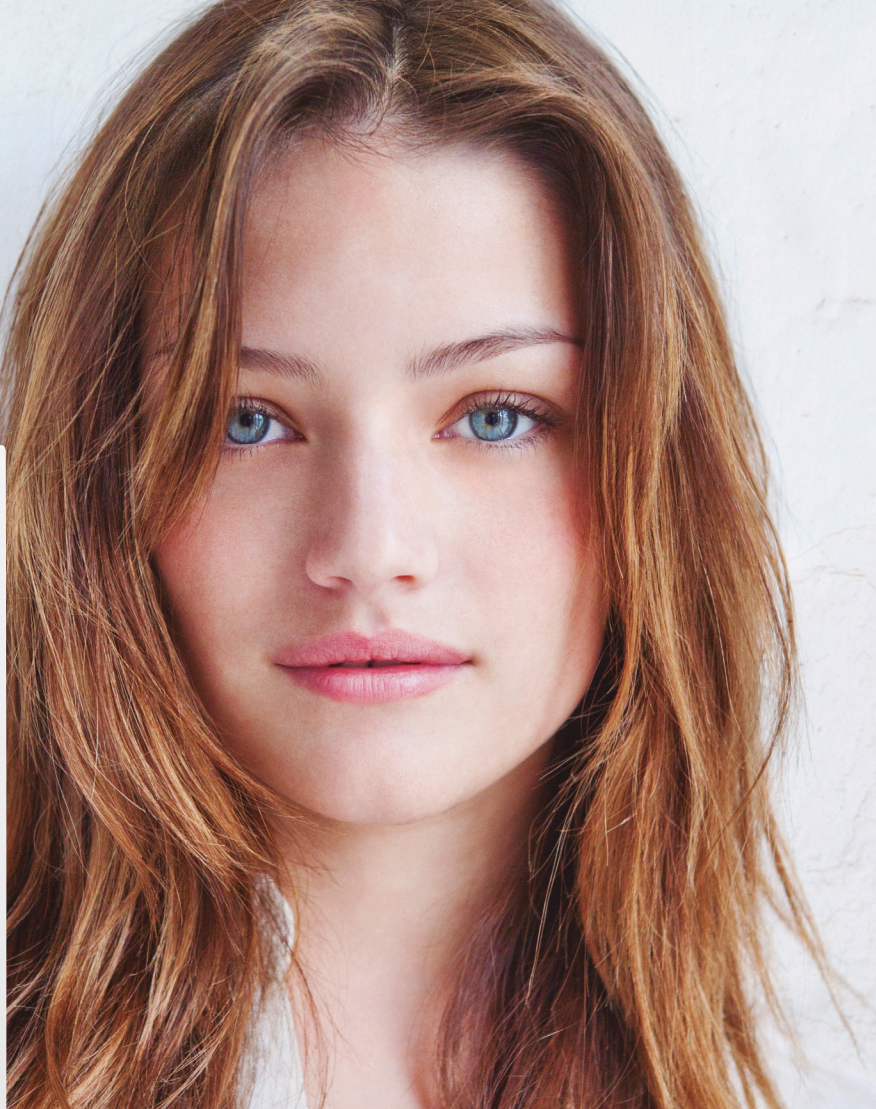

VEO

by FERMAX

INDOOR

AN ESSENTIAL CONCEPT, FUNCTIONAL
AND EASY-TO-USE.

JUST ESSENTIAL

The new Fermax monitor is even simpler and more functional. A synthesis that takes design and performance to their most essential expressions, in a monitor specially designed for those users who decide to take the leap into video.

A new member in the home for those seeking comfort and ease when communicating.

DUOX

Incorporates DUOX (Fermamax fully digital system in 2-wire non polarised) or VDS technology.

Made of high-impact ABS plastic. Texturised finish for easy cleaning and ultraviolet protection to get more resistance to the light.

It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors.

Its unique handset design incorporating a magnet enables the user to put it back into position correctly.

- Extra slim design.
- Surface installation.

PERFORMANCE

When a call is received, the image appears automatically . When the handset is picked up a conversation with the visitor can take place.

The image is de-activated automatically after 90 seconds, or when the handset is put back in position.

To open the door, press the button 

FUNCTIONS (VDS)

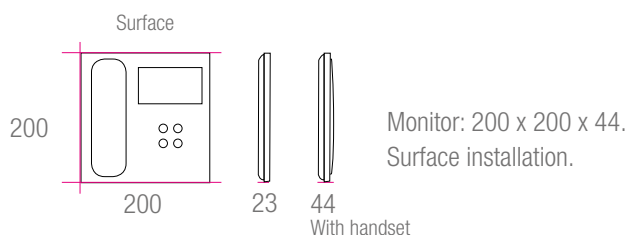

-  - Call to guard and door opener button.
-  - Autostart of main camera.
- F1-F2** - Button to activate additional functions: stair light switching, 2nd door opening, panic call, etc.
 - Door bell, for direct connection to house call push button .
 - Selectable call tones.
 - Call volume control: high, medium, disconnected.
 - Brightness, contrast and colour control.

ACCESSORIES

9410 VEO MONITOR DESKTOP SUPPORT

DIMENSIONS / INSTALLATION

Dimensions: (width) x (height) x (depth) mm.

DUOX

NEW

FUNCTIONS

- 4,3" COLOUR TFT screen.
- Call to guard and door opener button.
- Autostart of main camera. If there is more than one panel, you can choose in which one you want to trigger the camera.
- F1** - Button to activate 1 additional function: stair lighting, 2nd door opening, panic call, etc.
- MENU** - Menu Digital menu to configure and adjust the internal parameters:
 - Switch off ringtones mode. "Do not disturb" function.
 - Selection of call melodies and volume.
- F2** - Activation of a 2nd additional function.
 - Brightness/Contrast/Colour adjustment.
- **QR code:** access to

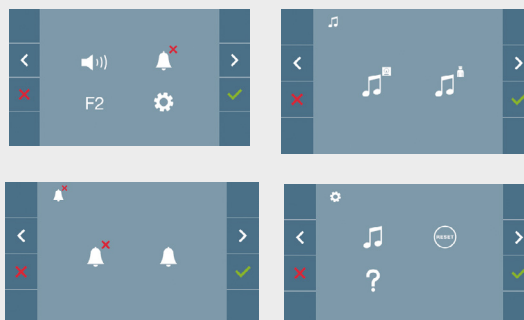

www.duoxbyfermax.com that contains manuals, complements, catalogues, etc that Duox technology offers you.

OSD MENU

The OSD menu lets you browse the screen using intuitively interpreted graphic icons.

The icons displayed on the screen (browser buttons) are handled with the corresponding buttons located on the monitor:

- ✓ Confirm choice and activate function.
- ◀ Select previous menu option.

DUOX

DUOX LOFT MONITORS

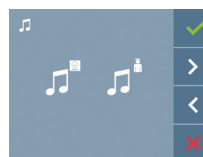

The LOFT DUOX monitor maintains the same aesthetic as its version in other technologies, but provides other much more advanced features, thanks to its built-in full digital technology.

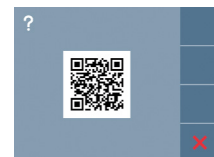

"Do not disturb" function

2nd additional function.

Volume and melody selection

QR code with DUOX information

The LOFT monitor is made of high-impact ABS plastic. Texturised finish for easy cleaning and ultraviolet protection. It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors.

A magnet located in the handset allows it to hang safely.

Surface installation.

PERFORMANCE

When a call is received, the image appears automatically on screen. When the handset is picked-up a conversation with the visitor can take place. Push the corresponding button **0** to open the door. The image disappears after a few seconds, or when the handset is hanged.

FUNCTIONS (VDS and 4+N)

- Available in B/W, COLOUR and with memories.
- 0** - Call the concierge and door opener button.
- 1** - Autostart of main camera.
- F1-F2** - Button to activate additional functions: stair lighting, 2nd door opening, panic call, etc.
 - Door bell, for direct connection to house call push button (VDS version).
 - Selectable ringtones.
 - Call volume control: high, medium, disconnected.
 - Brightness, contrast and colour control.

ACCESSORIES

3386 Decorative frame

Dimensions: 250x240

3441 Loft handset with induction loop

Adapted for people with a hearing disability.

Dimensions: (width) x (height) x (depth) mm.

DUOX

NEW

FUNCTIONS

- COLOUR TFT screen.
- Call to guard and door opener button.

- Autostart of main camera. If there is more than one panel, you can choose in which one you want to trigger the camera.

- **F1:** Button to activate 1 additional function: stair lighting, 2nd door opening, panic call, etc.

- **MENU:** Digital menu to configure and adjust the internal parameters:

- Switch off ringtones mode. "Do not disturb" function.

- Selection of call melodies and volume.
- **F2:** Activation of a 2nd additional function.

- Brightness/Contrast/Colour adjustment.

- **QR code:** access to www.duoxbyfermax.com that contains manuals, complements, catalogues, etc that Duox technology offers you.

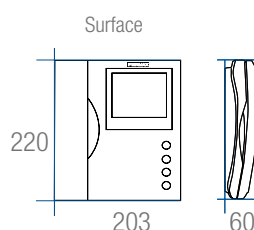

OSD MENU

The OSD menu lets you browse the screen using intuitively interpreted graphic icons.

The icons displayed on the screen (browser buttons) are handled with the corresponding buttons located on the monitor:

- ✓ Confirm choice and activate function.
- ◀ Select previous menu option.
- ▶ Enter next menu option.
- ✗ Go back to previous screen or standby.

DIMENSIONS / INSTALLATION

Monitor: 203x220x60.
Surface installation.

iLoft. Flush-mounted installation

iLOFT / iLOFT PURE

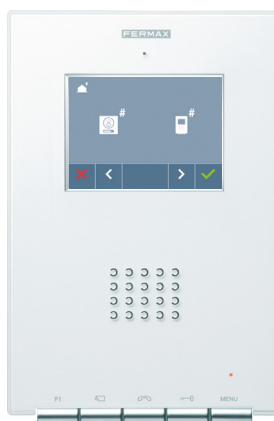

iLOFT PURE represents the essence of the iLOFT family. Matte finish, without the transparent polycarbonate sheet. Minimalism and simplicity. **Surface installation.**

NEW DUOX

Much more advanced features thanks to the full digital technology incorporated.

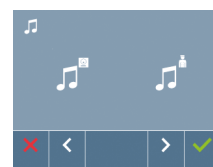

Available in flush-mounted (iLOFT DUOX) and surface (iLOFT PURE DUOX) installation (Consult availability).

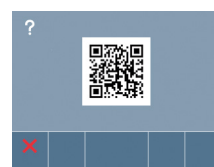

"Do not disturb" function

2nd additional function

Volume and melody selection

QR code with DUOX information

iLoft COLOUR hands-free monitor. Compact and extra slim. Its essential design features a transparent polycarbonate sheet, a singular audio output, multifunction buttons and a TFT screen displaying top quality and clarity.

The integrated digital audio technology ensures a high quality hands-free communication without interferences.

Flush-mounted (iLoft monitor) or surface (iLoft Pure monitor) installation.

PERFORMANCE

When a call is received, the image appears automatically on the monitor. To communicate with the outdoor panel the button  has to be pressed, allowing hands-free conversation.

PROGRAMMING

Allow internal parameters set up adjusted from the monitor itself once installed, through the digital menu. The monitor has to be programmed depending on the number of apartments that are installed.

ACCESSORIES

iLOFT

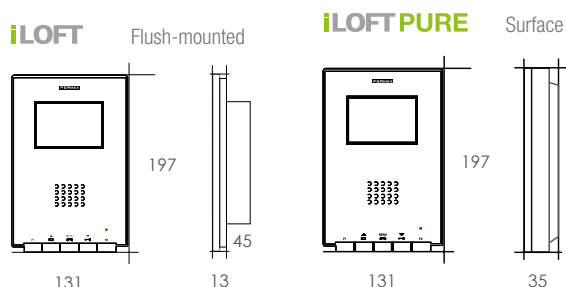

5631 DECORATIVE FRAME
Made of beveled crystal.
Only for flush-mounted monitor.

INDOOR

INDOOR

iLOFT TELEPHONE

The iLOFT telephone is a compact and extra slim door entry system that works in hands-free communication with the outdoor panel.

The integrated digital audio VDS technology ensures a high quality, hands-free communication without interferences.

Surface installation.

FUNCTIONS

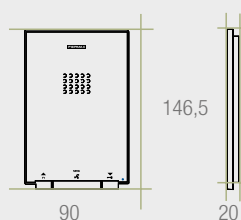

- «» - Button to activate/deactivate the communication with the door entry panel
-  - Call to guard and door opener button.
- F1** - Button to activate additional functions:
 - stair lighting , 2nd door opening, panic call...
 - 5 selectable or ringtones.
 - Sequential control volume.
 - "Do not disturb" function: volume off-red led.
 - Option change of operation, from hands-free to press-to-talk (PTT).
 - VDS technology.

PERFORMANCE

When receiving a call, press the button «» to establish a hands-free communication with the outdoor panel.

Communication will end automatically after 90 seconds or when «» is pressed again.

DIMENSIONS / INSTALLATION

Telephone: 90x146,5x20.
Surface installation.

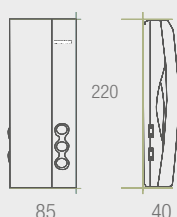

LOFT TELEPHONE

Made of high-impact ABS plastic with a texturised finish for easy cleaning and ultraviolet protection. It has many attachment points for wall mounting, as well as coiled cord with telephone plug connectors. A magnet located in the handset allows it to hang it safely.

PERFORMANCE

When a call is received it is possible to establish a conversation with the outdoor panel. Push the corresponding button  to open the door.

DIMENSIONS

Telephone: 85x220x40.

FUNCTIONS AND MODELS

The EXTRA version includes the following features:

-  - Call to guard and door opener button.
- F1-F2 - Button to activate additional functions:
 - stair lighting, 2nd door opening, panic call, etc.
 - 2 selectable ringtones.
 - Volume control: high, medium, disconnected.

UNIVERSAL version can replace the majority of standard telephones from other brands, both call buzzer and electronic. Also classic Fermalox models.

ACCESSORIES

3380 DECORATIVE FRAME

An aesthetic complement. Useful in replacement applications or replacing from older equipment. Dimensions: 200x240.

3441 LOFT HANDSET WITH INDUCTION LOOP

Adapted for people with auditive disabilities.

SYSTEMS

SYSTEMS

COMPOSITION

1. Outdoor panel
2. Power supply+adaptor
3. Line adaptor
4. Door lock release
5. Monitors and telephones
6. Accessories: relay (optional)

FEATURES

- A simplified installation system. It realises the transmission of the signal (audio, video & data) in a completely digital way increasing the equipment capacity using only 2 non polarised wires.
- Capacity: The system enables the management of up to 999.999 homes, up to 10 general entrance panels, up to 10 panels by block and 10 panels by sub-blocks, up to 100 interior blocks and up to 100 subblocks.
- Wiring: flexibility in the use of different cable types following the the specifications of DUOX features table (*See DUOX technical information*).
 - In new constructions it is possible to use equally parallel cable, twisted pair cable, UTP (CAT-5), 4+N or 9/10°.
 - In replacement works, DUOX works with the existing cable from old installations: 5 wires, 2 wires doorbell or even old 4+N wires.
- Maximum distance: up to 120 meters (expandable with regenerators).*
- No need for floor distributors or panel switchers. One line terminal is needed at the start and end of each riser.
- Requires 1 power supply per 40 monitors.
- Extensions inside the home: may be extended with up to 2 monitors or 2 phones.
- All panels include colour camera as standard issue.
- The DUOX amplifier comes with built-in voice synthesizer. When door release is activated, the message is heard: "The door is open. Please, close the door behind you." Configurable in 28 languages.
- The DUOX amplifier has a built-in voice guided programming system to facilitate in push button panels the configuration and start-up of the installation.
- DUOX amplifier does not include PAN&TILT.
- DUOX monitors and handsets must be programmed with the n° of the apartment where they are installed from a panel configured as Master or from the own monitor.
- DUOX monitors and handsets can be combined in the same installation, with no need for additional elements.
- Phone handsets can be upgraded to monitors in the home at any time, without including additional elements.

* For audio installations, see the "Audio DUOX information" at the "Technical Info" section.

3258 AUDIO DUOX TRUNK SHUNT ISOLATOR

Splits a riser into 2 separate branches, regenerating the signal and isolating each branch against possible breakdowns. Up to 4 modules on 2 levels (16 outputs). Risers can share the power source or have one supply per riser. To be installed with PSU, filter already included.

Cascade connection up to 2 levels. A higher load (up to 200 terminals per riser) may be connected by adding power supplies and depending on the type of wiring used.

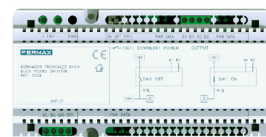

ref.3258

3253 VIDEO DUOX TRUNK SHUNT ISOLATOR

Splits a riser into 2 separate branches, regenerating the signal and isolating each branch against possible breakdowns. Up to 4 modules on 2 levels (16 outputs). Risers can share the power source or have one supply per riser. To be installed with PSU, filter already included. Cascade connection up to 2 levels.

A higher load may be connected by adding power supplies and depending on the type of wiring used.

ref.3253

3256 DUOX REGENERATOR

To regenerate the DUOX signal and extend distances and capacity of terminals. It allows for the isolation in case of short-circuits, the charge and the signal reflections. Maximum 5 units in cascade. It requires power for both sides. The regenerator amplifies the data, but doesn't allow the power through.

The two side sections require their own filter+ power source.

5. ACCESSORIES

ADDITIONAL FUNCTIONS

29001 TIMER

Allows for the activation of a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

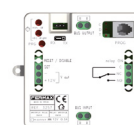

ref.29001

3257 DUOX RELAY MODULE

An additional function may be triggered from the DUOX handset F1 or F2 buttons, with no extra wiring required.

The relay can also be triggered by call or electric lock/door release activation. Allows for the pairing of 2 relays, one as sender and the other as receiver, for remote switching. It can be installed at any point of the bus.

ref.3257

2013 ADDITIONAL FUNCTION RELAY

Allows for the activation of electrical devices remotely using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc.

12Vdc, 12Vac or 18Vdc.

For monitors and Extra Duox telephones.

ref.2013

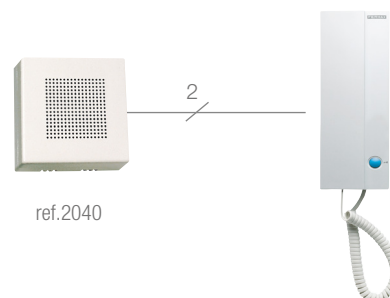

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL

Equipment that receives the door entry system ringtone, allowing it to be heard in any place where the call extender is located. It is possible to connect 1 for each monitor or handset.

2438 LIGHT OR BUZZER ACTIVATOR

Allows for the activation of high powered devices or indicators when a call is received: bells, sirens, light bulbs, etc. It is possible to connect 1 for each monitor or handset.

ref.2040

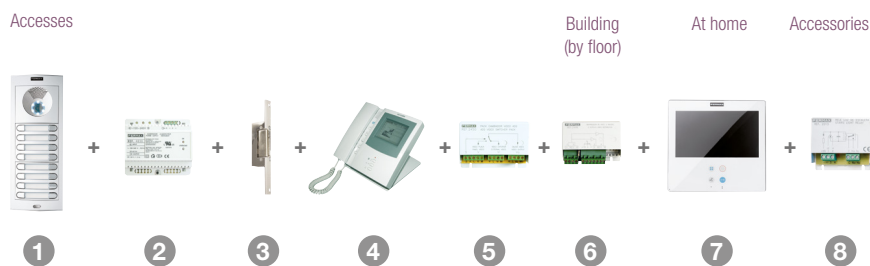

6. CABLES

5925 DUOX PARALLEL CABLE. 2x1mm²

Cables are supplied in 100 metre rolls.

COMPOSITION

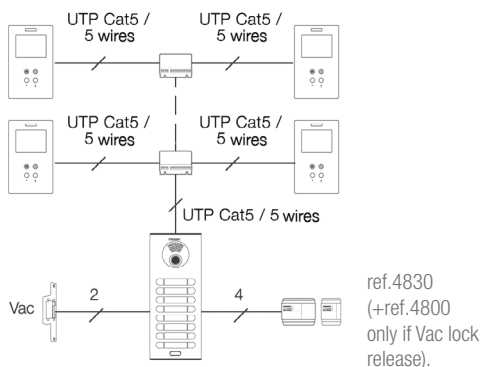

1. Outdoor panel
2. Power supply
3. Door lock release
4. Guard Unit
5. Switcher (2 video accesses)
6. Building (by floor): distributor (video)
7. Monitors and telephones
8. Accessories

FEATURES

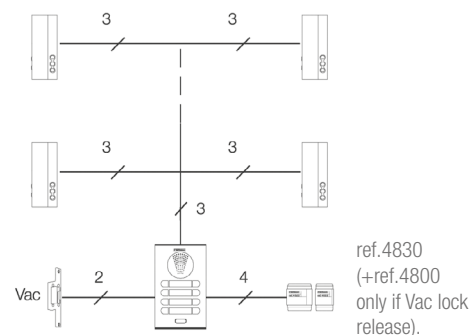

- **VDS wiring:** 5 wires, UTP CAT5 or 3 wires+coax.
- **Capacity:** buildings of up to 199 homes, 2 entry accesses and central guard unit.
- **Maximum distance:** 200 mtrs. (See VDS technical info).
- The VDS AMPLIFIER includes **Voice Synthesizer** as standard in 32 languages. A message is reproduced when the lock-release is activated: "The door is open. Please, close the door behind you".
- The **CAMERA is always in COLOUR.**
- The VDS MONITORS & HANDSETS must be programmed with the number of the corresponding home. It is possible to combine monitors and telephones in the same installation.
- The communication is **PRIVATE.**
- In replacements, the VDS allows to change 4+N entry system for a VDS video entry setup, making use of the existing wiring.

VIDEO

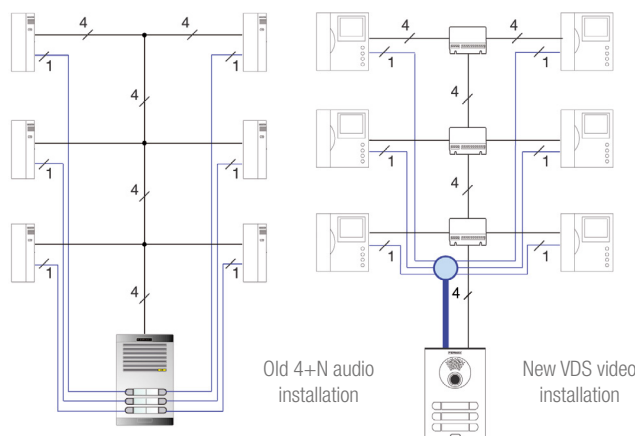

* It's possible to use 3 wires+coax. See specific technical information.

If the configuration calls for more than one panel, a connection cable ref.2541 between them is needed (1 cable for each additional panel). They can be joined laterally within the same series by means of a joining bolt set (ref.8829).

2. POWER SUP. / SWITCHER / DECODER

- 4830** POWER SUPPLY. 18Vdc/3,5A
To power the system. One power supply is required for each 40 monitors or each 80 telephones. DIN6 format.
- 4812** POWER SUPPLY. 18Vdc/1,5A
For additional monitors in homes. 1 power supply is required for every 2 additional monitors in the apartment. DIN6 format.
- 4810** POWER SUPPLY. 18Vdc/1,5A-12Vac/1,5A
- 4802** POWER SUPPLY. 12Vac/1A
- 4800** POWER SUPPLY. 12Vac/1,5A
To power the electric lock (Vac). DIN4 format.
- 1021** EMERGENCY MODULE. 18Vdc
For operation in the event of power cuts. Requires 2 lead acid batteries 12V/2,2A.
- 2450** VDS VIDEO SWITCHER
For installations with 2 VDS video outdoor panels (w/o guard unit).
- 3265** VDS TESTER
For programming and checking the workings in a faster, more convenient and efficient way.

6. VDS ACCESSORIES

APPLICATION	USE	NECESSARY EQUIPMENT
TO OPEN A SECOND DOOR	To open a door other than the one where the panel is from the telephone or monitor (for example, a rear door or a 2nd security door).	<ul style="list-style-type: none"> • Relay (ref.2013). • Additional button on the telephone or monitor*. • Power supply (ref.4800).
SWITCHING ON THE STAIR LIGHT	To activate the stair light timer from the telephone or monitor.	<ul style="list-style-type: none"> • Additional button on the telephone or monitor*. • Relay (ref.2013).
ACTIVATING A BELL FOR ADDITIONAL LIGHT WHEN A CALL IS RECEIVED	For places with excessive ambient noise or for people with auditive disabilities.	<ul style="list-style-type: none"> • Activator (ref.2438).
ACTIVATING A BELL, LIGHT OR DOOR FOR A CONSIDERABLE LENGTH OF TIME	To activate a device automatically when a call is received or manually by means of an additional button but for a pre-established time.	<ul style="list-style-type: none"> • Timer (ref.29001). • Additional button on the telephone or monitor if the activation is manual*.
HEARING THE CALL FROM ANOTHER PLACE THAN THAT WHERE THE TELEPHONE IS	When it is necessary to send the call sound to different parts of the home or business premises.	<ul style="list-style-type: none"> • Call extender (ref.2040) for electronic call.
VIEW FROM A SECOND CAMERA	To view a different place from that seen from the video camera on the door entry panel (rear of the house, etc.).	<ul style="list-style-type: none"> • As standard in Smile monitors. • Selector-changer (ref.2450) and camera kit for VDS system. Possible to expand up to 8 cameras with the selector ref.2472. • 2 additional buttons on the monitor.
OTHER OPTIONS		
TO RELEASE 2 ELECTRIC LOCKS AT THE SAME TIME	When a security door is installed in front of the main door and both need to be opened at the same time.	<ul style="list-style-type: none"> • Relay (ref.2013). • Power supply (ref.4800). • Automatic lock release (ref.3069).
TO ACTIVATE A LOCK RELEASE BY MEANS OF AN EXIT BUTTON	To open the door from a different place to where the telephone is. To open a door or security door that does not have a handle from inside the hallway.	<ul style="list-style-type: none"> • Does not require any special equipment. <p>For VDS systems, connect the button between the corresponding exit terminals of the outdoor panel amplifier.</p>

*It is necessary to add a wire in all the installation for each additional function.

4545 TELEPHONE INTERFACE

Installed at home and connected to the telephone, it allows for the communication with the outdoor panel as well as opening the door remotely from any conventional or wireless telephone at home. It also allows for the forwarding of the call to one or two external land lines or mobile telephones.

ref.4545

ADDITIONAL FUNCTIONS

2013 2A ADDITIONAL FUNCTIONS RELAY

Allows for the remote activation of electrical devices using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc.

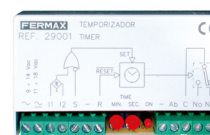

ref.2013

3491 DIN RAIL RELAY. 12Vdc/12A

88101 DOUBLE CONTACT RELAY. 18Vdc

29001 TIMER

Allows for the activation of a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

ref.29001

VIDEO ACCESSORIES

It is possible to expand video door-entry installations with a 2nd overhead camera and select and view it from the monitor (expandable up to 8 cameras).

2450 VDS VIDEO SELECTOR/SWITCHER
Necessary in VDS video entry system with 2 video entry panels.

2472 8-CAMERAS SELECTOR
Allows for the control of up to 8 additional cameras from the monitor (F1 and F2 buttons).

4614 2ND CAMERA SELECTOR
Allows for the selection of a 2nd camera by means of F1 push button.

4110 VIDEO AMPLIFIER
To regenerate the video signal of the coaxial in installations with cable distances of more than 200 metres.

ref.2450

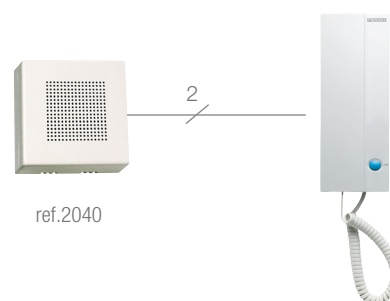

ref.2472

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL
Equipment that receives the door entry system call tone, allowing it to be heard in any place where the call extender is located. It is possible to connect 1 for each monitor or handset.

2438 VDS LIGHT OR BUZZER ACTIVATOR
Allows for the activation of high powered devices or indicators when a call is received: bells, sirens, light bulbs, etc. It is possible to connect 1 for each monitor or handset.

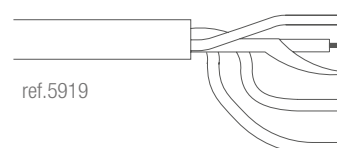

ref.2040

CABLES

All cables are supplied in 100 metre rolls.
Orders must be multiples of 100.

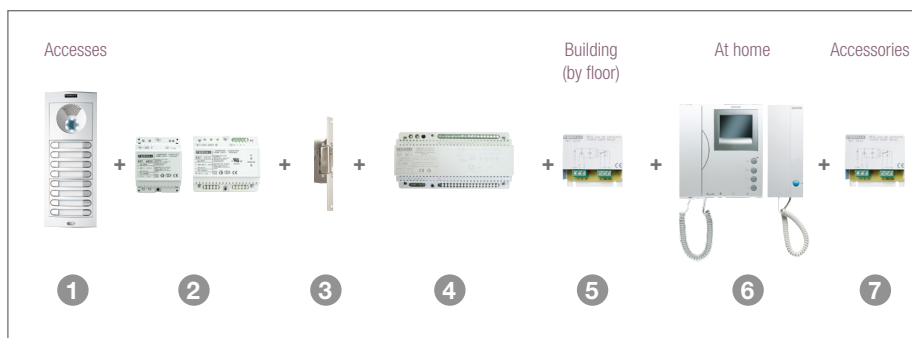

5919 VIDEO BUS CABLE. 1MTR
3 wires of 1mm² + 1 coaxial of 75 Ohms.

ref.5919

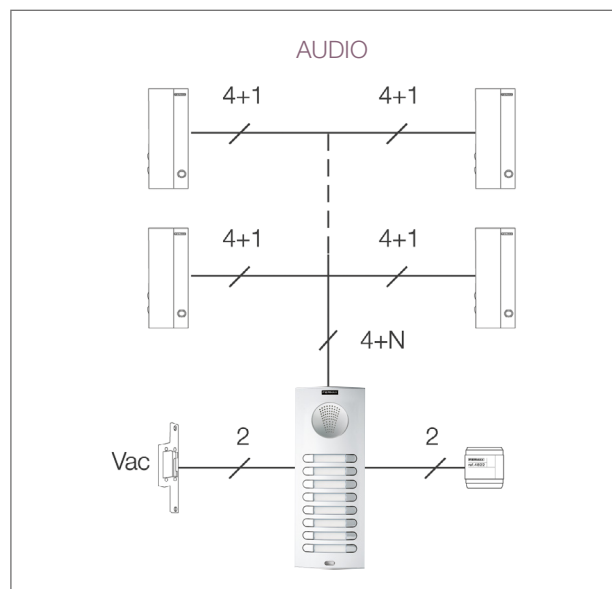

COMPOSITION

1. Outdoor panel
2. Power supply (audio/video)
3. Door lock release
4. Switcher (2 to 7 accesses)
5. Distributor (video)
6. Monitors and telephones
7. Accessories

FEATURES

- The analogue system uses 4 common wires for the entire installation plus 1 call (or call return) wire per home.
- For video installations, 3+coax (RG59) additional wires are required.
- Recommended in small/medium-sized buildings, 7 accesses maximum and guard unit.
- The AMPLIFIER includes volume controls, both outdoor-dwelling and dwelling-outdoor so the installer can obtain the optimum volume.
- The CAMERA includes COLOUR as standard.

1. OUTDOOR PANEL

PUSH BUTTONS

(See combinations at Panels section).

- Select the style of panel and the combination of buttons according to the number of apartments. 4+N ANALOGUE amplifier required.
- Select the corresponding flush box or panel accessory as required.

2. POWER SUPPLY / SWITCHERS

GENERAL POWER SUPPLY

4802	AUDIO POWER SUPPLY. 12Vac/1A
4800	AUDIO POWER SUPPLY. 12Vac/1,5A Supplies the audio system. One unit required for each outdoor panel. DIN4 format.
4830	POWER SUPPLY 18Vdc/3,5A Supplies the video system for video entry installations. One unit required for every 40 apartments. DIN6 format.

ref.4800

ref.4830

ANALOGUE

4812 POWER SUPPLY. 18Vdc/1,5A

For monitor extensions in homes. One power supply (ref.4812) is required for every 2 additional monitors. DIN6 format.

ref.4812

EMERGENCY POWER SUPPLY

8791 EMERGENCY AUDIO POWER SUPPLY

Supplies the audio system when the electricity supply fails. Normal output 12 Vac/1.5A. Emergency output 12Vdc/1.5A. Includes a Ni-Cd battery that guarantees the functioning of the audio system and over 400 lock-release services. One unit is required for each outdoor panel. DIN10 format.

ref.8791

1021 EMERGENCY BATTERY ADAPTOR. 18VDC

For power supply ref.4830. Requires two 12V batteries.

ref.1021

SWITCHERS

8809 VOLTAGE DISTRIBUTOR

Used with power supply ref.4800 or ref.8791 to power the switcher (ref.8811 or ref.8812) in installations with 2 accesses. Power is 12Vac. Outputs 12 Vac/1.5 A and 9Vdc/0.3A. DIN6 Format.

88231 POWER SUPPLY/VOLTAGE DISTRIBUTOR

Necessary when the installation contains automatic switchers or guard unit. In these cases, it replaces power supply (ref.4800). Outputs 12Vac/1,5A and 12 Vdc/0,5A. DIN6 format.

8811 AUDIO AUTOMATIC SWITCHER

1 for each audio door-entry access. Up to 7 accesses.

8812 VIDEO AUTOMATIC SWITCHER

8819 1/W AUDIO AUTOMATIC SWITCHER

To connect up to five 1/W audio panels. A switcher is required for every 2 additional panels. From 3 to 5 additional panels, a switcher is required for each panel.

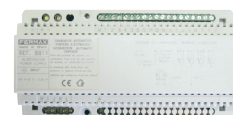

BUILDING WITH 2 ACCESSES

- 1 Power supply/distributor (ref.88231) for the main access.
- 1 Audio switcher (ref.8811) or video switcher (ref.8812).

MORE THAN 2 ACCESSES

- 1 Power supply/distributor ref.88231 for the first accesses.
- 1 Audio power supply (ref.4800) for each one of the other accesses.
- 1 Audio switcher (ref.8811) or video switcher (ref.8812) for each access.

In case of video door entry system, add 1 power supply (ref.4830) each 40 apartments.

ref.8811

3. LOCK RELEASE

30711 LOCK RELEASE 540N-S MAX

Normal functioning and small shield. 12Vac.

1821 LOCK RELEASE 540Ab-S MAX

Sliding automatic functioning and small shield. 12Vac.

540 Series consumption		
N,A	12Vac	980mA
N-412	12Vdc	260mA

4. GUARD UNIT

The CITY guard unit consists of a telephone and push button modules which are configured depending on the number of apartments. Check with the *Sales International Department* for the required model for the installation.

For intercom installations without outdoor panel.	

PALACE BUS SYSTEM

6. 4+N ACCESSORIES

APPLICATION	USE	NECESSARY EQUIPMENT
TO OPEN A SECOND DOOR	To open from the telephone or monitor a different door to where the outdoor panel is (for example, a rear door or a second security door).	<ul style="list-style-type: none"> • Relay (ref.2013). • Additional button on the telephone or monitor*. • Power supply (ref.4800). • Lock release mod.450A-S (ref.3069).
SWITCHING OF THE STAIR LIGHT	To activate the stair light timer from the telephone or monitor.	<ul style="list-style-type: none"> • Additional button on the telephone or monitor*. • Relay (ref.2013).
ACTIVATING AN ADDITIONAL BELL OR LIGHT WHEN A CALL IS RECEIVED	For places with excessive ambient noise or for people with auditive disabilities.	<ul style="list-style-type: none"> • Activator ref.8053. Connection between 3 and 4 monitors/telephones of the house.
ACTIVATING A BELL, LIGHT OR DOOR FOR A CONSIDERABLE LENGTH OF TIME	To activate a device automatically when a call is received or manually by means of an additional button but for a pre-established time.	<ul style="list-style-type: none"> • Timer (ref.29001). • Additional button on the telephone or monitor if the activation is manual*.
HEARING THE CALL FROM ANOTHER PLACE WHERE THE TELEPHONE IS PLACED	When it is necessary to send the call sound to different parts of the home or business premises.	<ul style="list-style-type: none"> • Call extender (ref.2040) for conventional electronic call system.
VIEW FROM A SECOND CAMERA	To view a different place from that seen from the video camera on the street panel (rear of the house, etc.).	<ul style="list-style-type: none"> • Image selector (ref.4614) and camera kit. • Additional button on the telephone/monitor is required*.
OTHER OPTIONS		
TO RELEASE 2 ELECTRIC LOCKS AT THE SAME TIME	When a security door is installed in front of the main door and both need to be opened at the same time.	<ul style="list-style-type: none"> • Relay (ref.2013). • Power supply (ref.4800). • Automatic lock release (ref.3069).
LOCK RELEASE BY MEANS OF AN EXIT BUTTON	To open the door from a different place to where the telephone is. To open a door or security door that does not have a handle from inside the hallway.	<ul style="list-style-type: none"> • No special equipment is required. For conventional system, connect the push button between terminals 1 and 3 of the panel amplifier (or phone amplifier).

*It is necessary to add 1 wire in all the installation for every additional function.

4545 TELEPHONE INTERFACE

Installed at home and connected to the telephone, it allows the communication with the outdoor panel as well as opening the door remotely from any conventional or wireless telephone at home. It also allows for the forwarding of the call to one or two external land lines or mobile telephones.

ref.4545

4+N PANEL ACCESSORIES

2065 GENERAL CALL AMPLIFIER

Installed in the interior of the outdoor panel, increases the call ring volume in all the terminals of the installation.

ref.2065

7900 COMPATIBLE SINGLE-CHANNEL RECEIVER

Module for installation in audio entry panels which makes it possible to activate the lock-release by means of a remote control. Frequency: 433 Mhz. Power supply 12 Vdc/ac. Dimensions: 60x70x17.

ref.7900

ref.79561

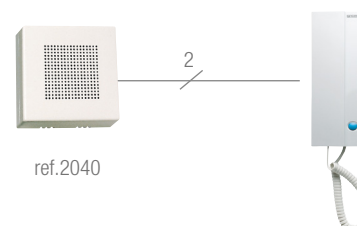

79561 DUAL CHANNEL EMITER. 433MHZ

1170 32 LANGUAGES VOICE SYNTHESIZER

CALL ACCESSORIES

2040 ELECTRONIC CALL EXTENSION BELL

Device that receives the call ring of the audio door-entry system. Allows for the ringtone to be heard anywhere where the device is installed. Possible to connect 1 for each telephone/monitor.

ref.2040

ANALOGUE

8053 4+N/MDS LIGHT OR BUZZER COMMANDER
Makes it possible to activate high-power devices or indicators when a call is received: bells, sirens, light bulbs, etc. Possible to connect 1 for each monitor/telephone.

ref.8053

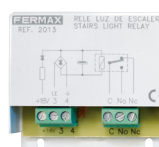

2340 4+N/MDS CALL MULTIPLIER
Device which increases the call volume in installations with more than 5 telephones or monitors at home. Power supply 18Vdc (ref.4812).

ref.2340

ADDITIONAL FUNCTIONS

2013 2A ADDITIONAL FUNCTION RELAY
Allows for the remote activation of electrical devices using an additional button on the telephone or monitor: switch on the stair light, open the garage, open a 2nd door, etc. Activation by 12Vdc, 12Vac or 18Vdc.

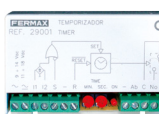

ref.2013

3491 DIN RAIL RELAY. 12Vdc/12A

88101 DOUBLE CONTACT RELAY. 18Vdc

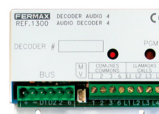

29001 TIMER
Allows for the activation of a device for a given time (programmable from 0 to 6 minutes or 0 to 60 seconds). The activation can be automatic when a call is received or by means of a specific button on the telephone or monitor.

ref.29001

COMBINATION WITH OTHERS SYSTEMS

1300 MINIDECODER AUDIO 4+N
Necessary to make enclosures in interior blocks already installed in conventional system with a maximum of up to 40 homes per 4+N block. 1 decoder every 4 homes + 1 automatic switcher ref.8811 or ref.8812 + 1 power supply/distributor 230Vac-12Vac/dc (ref.88231) + 1 timer (ref.29001).

ref.1300

VIDEO ACCESSORIES

2472 8-CAMERAS SELECTOR
Allows for the control of up to 8 cameras from the monitor by means of F1 and F2 push buttons.

4614 2ND CAMERA SELECTOR
Allows by means of F1 or F2 button, to add an extra camera.

4110 VIDEO AMPLIFIER
To regenerate the video signal of the coaxial.

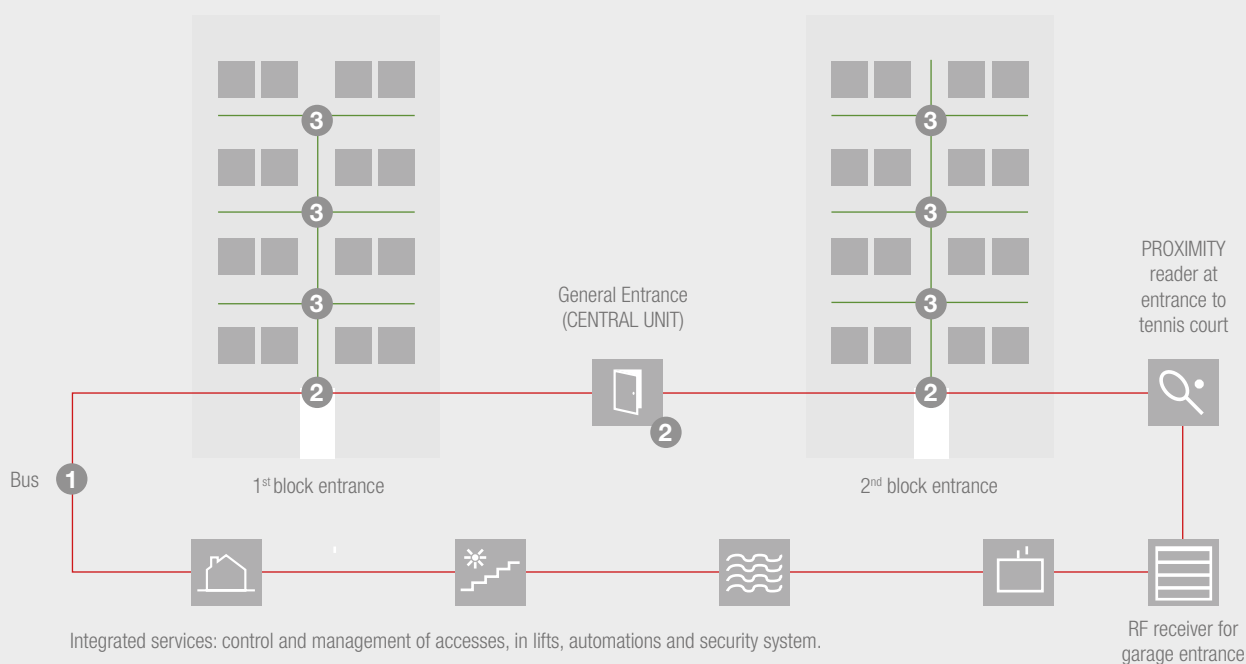

ref.2472

FEATURES

- MDS (Multiplexed Digital System) is a digital audio and video door-entry system of maximum performance and great capacity.
- Allows for the management of buildings and condominiums of whatever size.
- **AUDIO AND VIDEO DOOR ENTRY SYSTEM.**
- **INTERCOMMUNICATION** between accesses, homes, guard units and lifts.
- **ACCESS MANAGEMENT AND CONTROL** according to authorisations to restricted areas. Each user has an identification code for all accesses.
- **SECURITY** centralised in the guard unit, for protection of common areas and control of incidents in the homes.
- **AUTOMATION** of functions and services of the apartment block or condominium (sprinklers, lights, swimming-pool, etc).
- MDS is a system with simplified BUS installation **1**.
- The Central Unit **2** incorporates all the electronics for management and control of the system.
- The floor MDS decoders and MDS distributors **3** connect the homes to the installation BUS and act as isolators.
- Home to outdoor panel communication is private.

MDS SYSTEMS OPTIONS

- **MDS DIGITAL:** Requires a Central Unit (C.U. Capacity: 9.999 homes, 32 accesses/guard units). Up to 63 Central Units can be connected. Incorporates all the MDS services.
- **MDS DIRECT:** Does not require a Central Unit. Includes access control via keypad. Capacity: Up to 9.999 homes in individual blocks and 99 homes in internal apartment blocks.
- **MDS CITY:** Panel with pushbuttons. Up to 99 homes and 9 accesses per block. Does not require a Central Unit. Cannot be used as a general entrance.
- **MDS COMBINED WITH OTHER SYSTEMS:** In the case of housing complexes, the flexibility of MDS Allows for the combination of general MDS entrances and internal apartment blocks with VDS or conventional 4+N audio or video door-entry system or with individual houses.

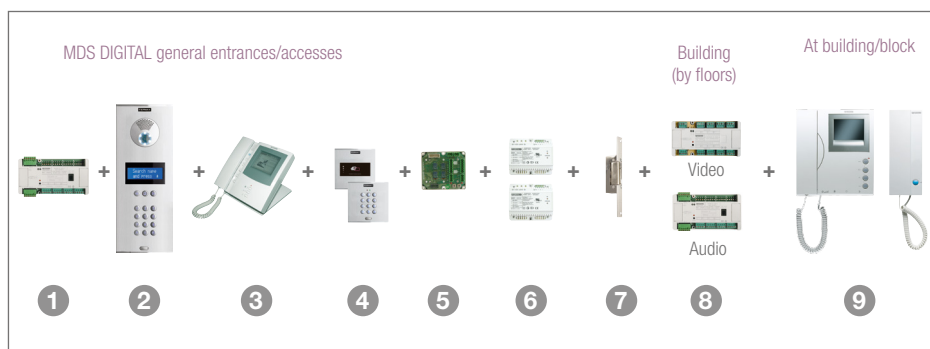

MDS DIGITAL

A MDS DIGITAL system at general entrances combined with VDS system at interior blocks it's composed by:

COMPOSITION

1. Central Unit (up to 32 accesses)
2. MDS digital panel
3. Guard unit
4. Readers
5. Switchers
6. Power supply (audio+video)
7. Door lock release (cc)
8. Video/audio distributor
9. Monitors and telephones

1. OUTDOOR PANEL

Panel with KEYPAD + ELECTRONIC DIRECTORY.
A Central Unit is required.

SKYLINE (SEE SKYLINE PANEL SECTION)

It allows for the creation of any MDS DIGITAL panel combination with other access control or informative accessories: cardholder, proximity, fingerprint, OneToOne, etc.
4+N amplifier is required.

2. ACCESS CONTROL READERS

Access control readers are considered by the Central Unit as just another access. Every central Unit (ref.2405) allows for the management of up to 1.020 users of access control.

The panel is supplied with the corresponding flush box. No switcher is required.

3. GUARD UNIT

2537 MDS DIGITAL GUARD UNIT

Desktop support included. Allows surface installation. Includes a 4" graphic display that informs of all the events and actions of the installation: origin of call, type of call, call, call waiting, latest communication, etc.

The guard unit has 3 operation modes: day, night and mixed, and in the case of MDS Digital Installations, it can act as a panic reception center. The guard unit can communicate with any access or home, and can establish communication between any 2 points of the installation (exclusively MDS installation).

ref.2537

4. CENTRAL UNIT

Needed at installations with MDS digital panels.

2405 MDS 1 ACCESS CENTRAL UNIT

Manages up to 9.999 apartments and 1.020 access control users.

- **In individual blocks:** manages up to 32 accesses (1 of them can be audio/video). For more audio/video accesses, switcher (ref.2379) every 2 accesses will be required.

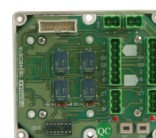

- **In housing complexes:** up to 31 accesses per Central Unit if the accesses are audio/video, 2-access switchers ref.2379 will be required. Includes WINCOM PLUS software for PC configuration. Includes memory for incidents record (A.C. applications).

ref.2405

2379 2 ACCESSES SWITCHER

Necessary to connect more than one video panel/guard unit to C.U. Add 1 module for more than 1 additional panel/guard unit.

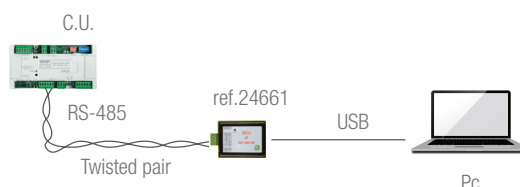

ref.2379

PC CONNECTION ACCESSORIES

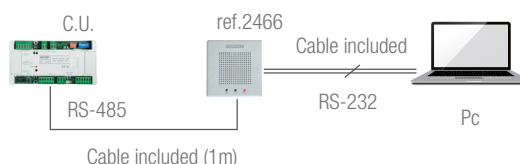

24661 USB ADAPTOR TO RS485

Enables Central Unit programming by PC in FXL network. PC Connection by USB.

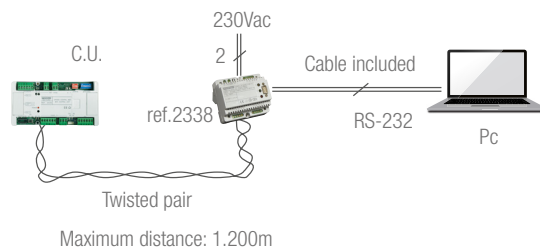

2466 PC DECODER PROGRAMMING MODULE

Enables Central Unit programming by PC (serial port).

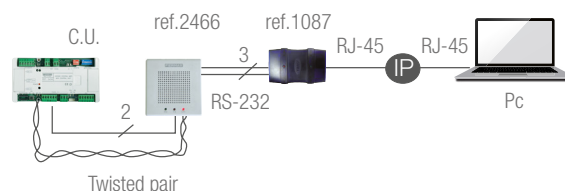

2338 RS-232 TO RS-485 PC ADAPTOR

Allows Central Unit programming in FXL network. DIN. RS-232 connection to PC. Allows to connect 1 modem for remote management by telephone. Maximum distance to Central Unit: 1.200m.

1087 IP REMOTE MANAGEMENT MODULE

Is connected to the Central Unit by means of the adaptor ref.2466. Allows for the connection of between the management computer and the installation using the computer network (Ethernet), avoiding additional wiring.

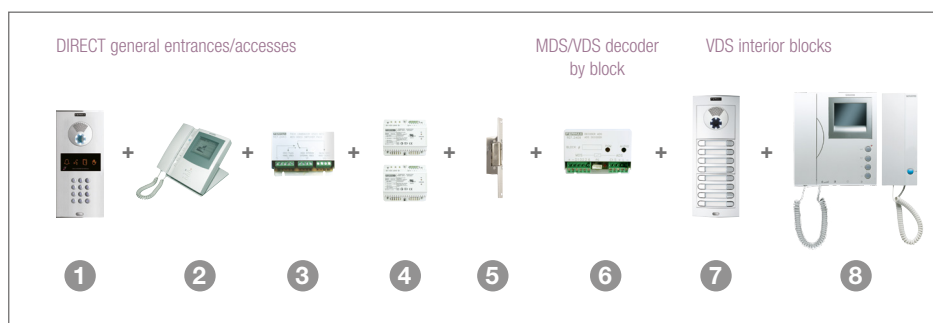

MDS DIRECT/CITY

A MDS DIRECT system in general entrances combined with a VDS system at interior blocks is composed by:

COMPOSITION

1. MDS Direct outdoor panel
2. Guard Unit
3. Switcher
4. Power supply (audio+video)
5. Door lock release (VDC)
6. VDS/MDS decoder
7. VDS block panel
8. Monitors and telephones

1. OUTDOOR PANEL

MDS DIRECT

CITYLINE

Central Unit not required. The panel includes KEYPAD and requires adding a cardholder or directory.

Capacity:

- General Entrance: 9.999 apartments, 5 accesses and Guard Unit.
- Interior Block: 99 apartments and 9 accesses.
- Individual Block:
 - a) 99 apartments, 5 accesses and Guard Unit.
 - b) 99 apartments, and accesses.

MDS DIRECT / CITY

MDS CITY

Push buttons panel for access to internal blocks combined with MDS DIRECT or DIGITAL systems in general entrances. Capacity:

- Interior blocks: 99 apartments and 9 accesses.

- Individual block:

a) 99 apartments, 5 accesses and central unit.

b) 99 apartments and 9 accesses.

The SKYLINE frames and module combinations will depend on the number of apartments in the building. Required modules to configure an MDS CITY panel:

- MDS V SKYLINE digitiser.

- 4+N W SKYLINE amplifier.

- VDS SKYLINE push buttons modules.

7460 SKYLINE V MDS DIGITISER

SKYLINE (SEE SKYLINE PANEL SECTION)

Allows for the creation of any audio or video door entry panel with access control and informative displays.

2. SWITCHERS

2443 MDS DIRECT/CITY 1 ACCESS SWITCHER

One is required for each additional video panel.

3. GUARD UNIT

2532 MDS DIRECT/CITY CITYMAX GUARD UNIT

Desktop support included. Allows surface installation.

The MDS DIRECT/CITY system allows for the connection to 1 Guard Unit.

COMMON ELEMENTS FOR ALL MDS SYSTEMS

1. POWER SUPPLY

4813 AUDIO POWER SUPPLY. 12Vdc/2A

Requires: 1 unit for each Central Unit and up to 6 accesses; or 1 unit for every 10 VDS decoders or audio decoders, depending on the distance and cable cross-section used. DIN6 format.

4830 VIDEO POWER SUPPLY. 18Vdc/3,5A

Requires: 1 unit for each 40 monitors or 1 unit for each 4 monitors per apartment. DIN6 format.

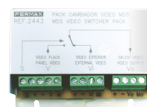

4812 VIDEO POWER SUPPLY. 18Vdc/2A

To extend the number of monitors in homes. Requires: 1 unit for every 2 additional monitors per home. DIN6 format.

SKYLINE

NOTE: For the programming of the installation with more than 1 MDS CITY panel it's necessary a DIRECT KEYPAD (ref.7439).

EMERGENCY POWER SUPPLY

For functioning of the power unit if the electricity supply fails, it is necessary to connect it to an adapter, to which a battery is connected. Compatible with any type of standard lead acid battery.

2060 EMERGENCY BATTERY ADAPTOR. 12Vdc

1021 EMERGENCY BATTERY ADAPTOR. 18Vdc

ref.2060

2. LOCK RELEASE

For other models see *Lock release section* or *Lock release current catalogue*.

67501 UNIVERSAL LOCK RELEASE 990N-P22 MAX

10-24 Vac/dc.

6750 UNIVERSAL MECHANISM 990N MAX 10-24Vdc/ac

Normal operation. 12Vdc or 12Vac. Standard issue with adjustable MAX latch bolt. Requires short shield (S ref.2973 or P22 ref.2894) or large (M ref.2893).

30701 LOCK RELEASE 540N-412-S MAX

Normal operation and short shield. 12Vdc.

3264 AC ELECTRIC LOCK COMMANDER

Maximum current: 1 Ampere.

540

990

540 Series consumption		
N,A	12Vac	980mA
N-412	12Vdc	260mA

990 Series consumption		
N	12Vac	250mA
	12Vdc	280mA

3. MDS REPEATER / VIDEO AMPLIFIER

2339 MDS / AC+ REPEATER

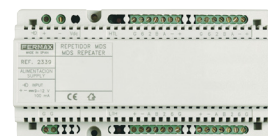

To regenerate the digital signal of the panels or decoders BUS that is transmitted by the twisted pair of the installation. DIN10 format.

4110 VIDEO AMPLIFIER

To regenerate the video signal when the length of the BUS is greater than 250 metres. One amplifier every 250 m.

1345 FIBER OPTICS CONVERTER

Allows MDS/AC+ signal transmissions (audio, video and data) by means of a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies.

ref.2339

ref.2429

ref.2430

4. COMBINATION W/ OTHER SYSTEMS

The MDS decoder allows connecting the general entrance (G.E.) with interior blocks (I.B.) with other technology such as VDS or 4+N. One decoder is needed per block, except for 4+N. *See tables.*

1300 MDS/4+N MINIDECODER

Necessary for enclosures in analogue interior blocks (maximum of up to 40 homes per block). 1 decoder every 4 homes.

ref.1300

4+N		
Audio I. B.

	29001	Timer

MDS

2409 VDS / MDS DECODER

Necessary for enclosures in VDS interior blocks already installed 1 decoder per block. Add one distributor (ref.2448) and/or switcher (ref.2450) in general video entry installations.

5. MDS DECODERS/DISTRIBUTORS

Necessary elements in complete MDS installations in general entrances and interior blocks with analogue terminals (*See analogue system section*).

2424 4-WAYS MDS AUDIO DECODER

2425 8-WAYS MDS AUDIO DECODER

2426 4-WAYS MDS AUDIO ISO DECODER

1 unit for every 4 homes (audio/video). Necessary in MDS installations where total isolation of the telephones from the rest of the installation is required (anti-sabotage) and in MDS DIGITAL installations with "panic button" or with light indicator on telephones. DIN10 format.

2436 4-PANEL DECODER. DIN10

1 unit for every 4 panels 4+N of up to 2 push buttons. For installation in lifts or garages, in order to make calls to concierge. DIN10.

2466 PC DECODER PROGRAMMING MODULE. PC RS-232 TO RS-485 ADAPTOR

Includes DECOWIN software and connection cables. Allows remote programming of the MDS Digital C.U. and decoders.

24661 USB TO RS-485 PC ADAPTOR

Enables programming of MDS Digital Central Unit (ref.2405) and decoders by PC via USB port.

2418 4-WAYS MDS VIDEO DISTRIBUTOR

2419 8-WAYS MDS VIDEO DISTRIBUTOR

2429 8-SENSOR DECODER. DIN10.

1 unit for every 8 alarm sensor inputs standard.

2430 4-RELAY DECODER.DIN10

1 unit for every 8 relay outputs for activation of an electrical device of up to 2A, 250V.

6. CABLES

All cables are supplied in 100 metre rolls. Orders must be multiples of 100.

5918 DECODER-PANEL-FXL CENTRAL UNIT BUS CABLE (1M)

4 wires 1mm²+1 twisted pair shielded of 2 x 0,5 mm².

5919 VIDEO BUS CABLE (1M)

3 wires of 1mm²+1 coaxial of 75 Ohms.

59200 DECODER-MONITOR CONNECTION CABLE (1M)

3 wires of 1mm²+8 wires of 0,5mm²+1 coaxial of 75 Ohms.

5922 DECODER-TELEPHONE CONNECTION CABLE (1M)

6 wires of 0,5mm².

7. MONITORS AND TELEPHONES

FEATURES

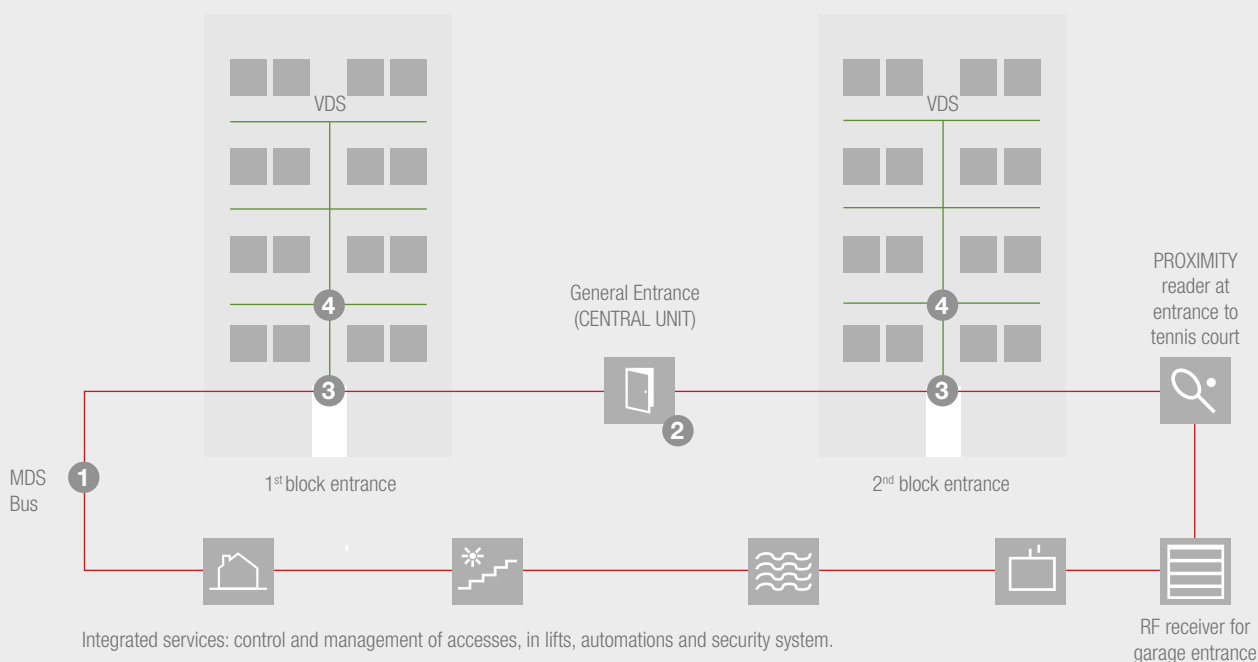

- MDS/VDS combination is the system with the most complete functions and maximum wiring simplicity.
- It consists of a combination of:
 - MDS Digital System for General Entrances.
 - VDS Digital System for Interior Blocks.
- Its capacity is expandable:
 - From 1 to 9.999 units.
 - Up to 32 entrances or guard/managements.
 - Combined with single houses, medium or big blocks.
 - Possibility of several access control readers along the condominiums.

IN MEDIUM SIZE BLOCKS INSTALLATIONS

One MDS/VDS Decoder is required **3** per block. VDS cable inside the building **4** : UTP CAT5, 5 WIRES or 3+COAX.
VDS telephones & monitors are required.

INSTALLATION

- System with simplified MDS BUS installation **1** connecting general entrances, interior blocks and access control readers.
- **MDS AUDIO BUS**: 4 common wires + 1 common shielded twisted pair.
- **MDS VIDEO BUS**: 6 common wires + 1 common shielded twisted pair + 1 video coax cable.
- MDS Central Unit is required in general entrances. Capacity: 9.999 homes, 32 accesses/guards units. Central Unit **2** includes all the electronic elements for managing and controlling the system.
- The MDS System (MDS BUS) installed at general entrances can be combined with VDS System (UTP CAT 5, 5 WIRES or 3+COAX) in the blocks, thanks to a MDS/VDS decoder **3**. The MDS/VDS decoder (new version) allows VDS Monitors and Telephones to make additional functions as panic call to the guardian or control lift.

MDS/VDS

MDS/VDS Digital system with medium-size interior blocks basically consists of the following elements:

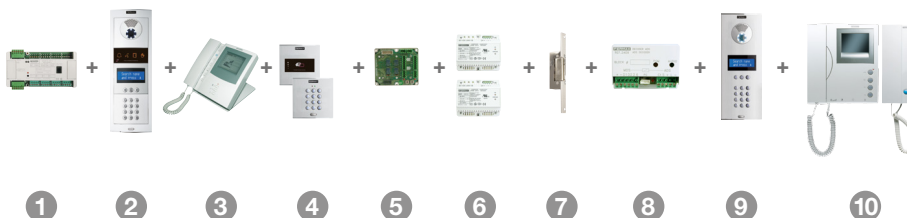

COMPOSITION

1. Central Unit (up to 32 accesses)
2. MDS digital entry panel
3. Guard unit
4. Readers
5. Switcher
6. Power supply (audio+video)
7. Door lock release (VDC)
8. MDS/VDS decoder per block
9. VDS entry panel
10. VDS monitors and telephones

At MDS general entrances and common accesses

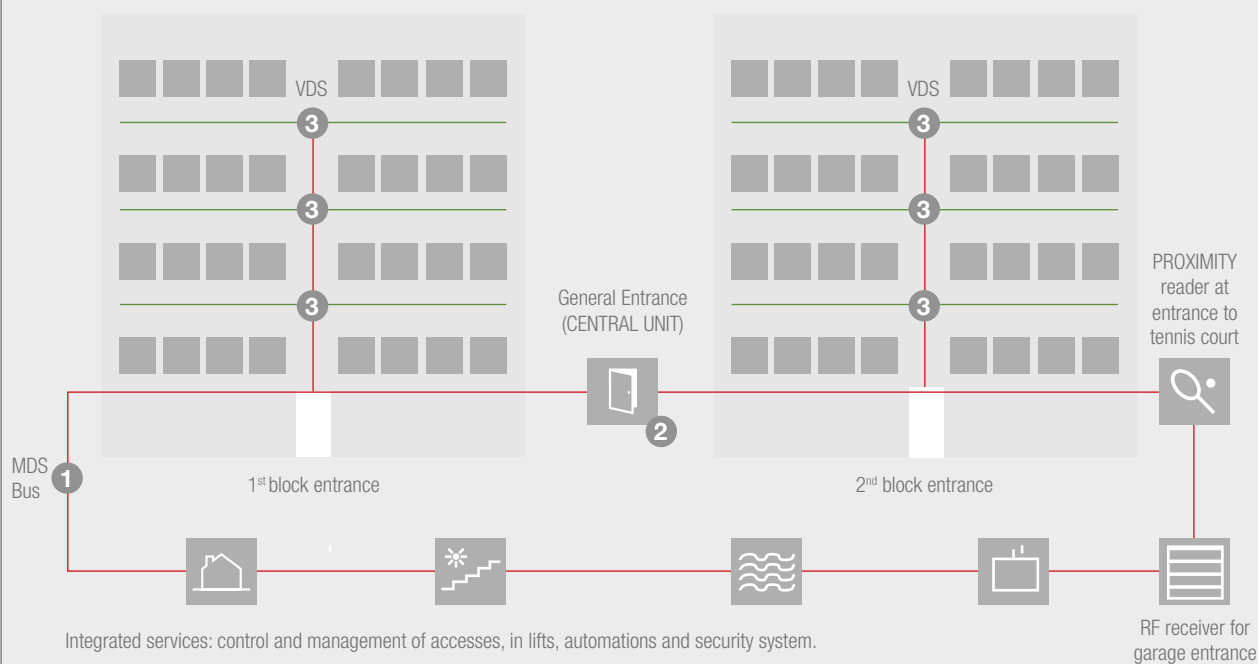

MDS/VDS decoder

At interior

IN BIG SIZE BLOCKS INSTALLATIONS

In big interior blocks with several terminals in each floor or specific functionalities are demanded, a MDS/VDS Decoder **3** is required per floor. MDS BUS in the riser and VDS cable in each floor **4**: UTP CAT5, 5 WIRES or 3+COAX. VDS telephones & monitors are required.

MDS/VDS Digital system with big-size interior blocks basically consist of the following elements:

COMPOSITION

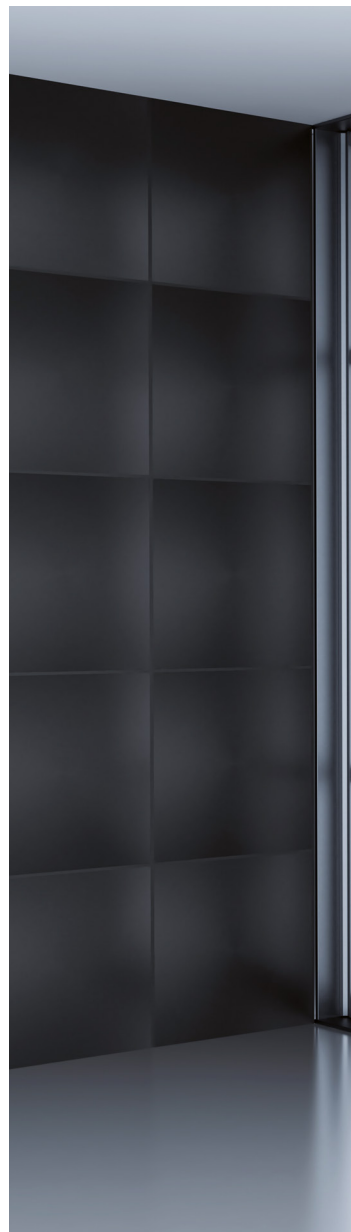

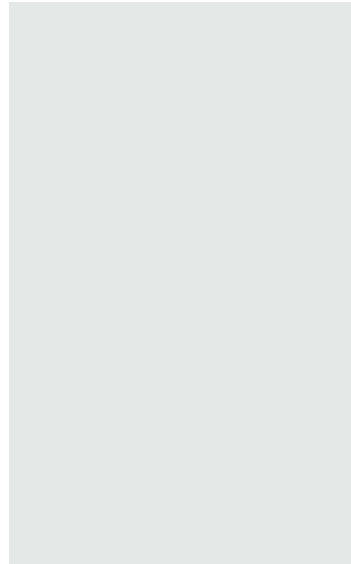

1. Central Unit (up to 32 accesses)
2. MDS digital entry panel
3. Guard unit
4. Readers
5. Switcher
6. Power supply (audio+video)
7. Door lock release (VDC)
8. Central Unit (up to 32 accesses)
9. VDS entry panel
10. MDS/VDS decoder per block
11. VDS monitors and telephones

At MDS general entrances and common accesses

ACCESS CONTROL

ACCESS

STAND-ALONE

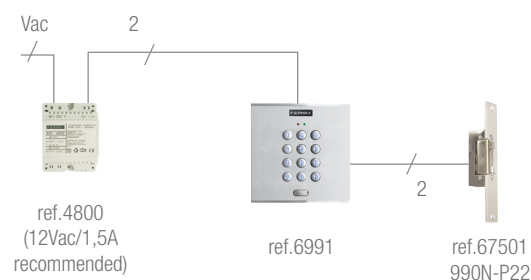

Stand-alone systems allow the control of a door or access. Recommended for offices, businesses, garages, etc.

SKYLINE readers can be integrated in audio or video door entry panels to enable access to the building for residents.

WITH INTEGRATED CONTROLLED

1. KEYPAD (MEMOKEY)

- Maximum capacity: 100 codes.
- Power supply 12Vac/12Vdc. Power supply 12Vac/1,5A (ref.4800) is recommended.
- Input for exit button on the inside.
- Input for free access button.
- 2 relay outputs (2A,NC/NA) (1 output in LOFT model) for activation of lock release and connection of alarm. Programmable time.
- Each code can activate one or two relays at the same time.
- Acoustic confirmation of acceptance/rejection of the code.
- Programming from the keypad by means of a master code.

6991	CITYLINE MEMOKEY	Indoor/outdoor. Aluminium panel. Permanent backlight keypad made in zamak with signal LEDs. Flush-box included (ref.8948). Surface installation option (ref.7061).

SHOP SYSTEM

7903 REMOTE CONTROL RECEIVER FOR SHOPS
Configuration by means of trinary dip-switch. Input for exit button. Relay output (2A, NO) for activation of lock-release. 230 Vac power supply. DIN6 Box. Dimensions: 105x90x60.

ref.7903

7900 COMPATIBLE SINGLE CHANNEL RECEIVER
For installation inside electronic door or video entry system outdoor panels.

ref.7900

79561 TRINARY RF EMITTER. 433Mhz
Configuration by trinary dip-switch.
A single code for all emitters.

ref.79561

SECURITY SYSTEM

The RF digital emitters have an exclusive code for each user. Recommended for garage access and remote control of devices: lights, blinds, sirens, etc.

7960 SECURITY RF RECEIVER
10 users maximum. Input for exit button. Relay output (2A, NC/NA). Programmable time. Mono-stable/bi-stable functioning. 12Vac/12Vdc. Compact-sized dimensions, so it can be hidden in distribution boxes. Dimensions: 90x60x20.

ref.7960

24651 DIGITAL RF REMOTE CONTROL
With 1 unique code by transmitter.

ref.24651

COLLECTIVE GARAGES SYSTEM

7952 SINGLE CHANNEL RF RECEIVER. 433Mhz
Configuration by means of trinary dip-switch. Accepts a card for addition of a 2nd channel. Relay output (2 A, NC/NA). 230Vac power supply. ABS IP65 box. Dimensions: 91x198x57.

ref.7952

79561 TRINARY RF EMITTER. 433Mhz
Configuration by trinary dip-switch.
A single code for all emitters.

ref.79561

ADVANCE STAND-ALONE AxesKey

Cutting-edge stand-alone systems enable to manage both 868MHz emitters and 13.56Mhz AXESKEY proximity cards and keyrings. They also issue collective or individual authorizations/cancellations manually or remotely, with no need to travel to the installation site. The entire AXESKEY range connect directly via PC using the **RF-PROX USERPLUS PROGRAMMING KIT** ref.5258 for overall control of installations.

- 868Mhz frequency.
- "Rolling Code" code switching high security emitters.
- Range 100mts.
- APS Approaching System. Emitters can be triggered even when out of range or from the receiver.
- Programming manually or by programmer.
- Enables code reservations by means of UserPlus Kit, ref.5258.
- Emitters/cards can be replaced with no need to go to the installation, using the UserPlus Kit, ref.5258.
- SINGLE, DUAL (emitter + proximity dual technology) and TRI (emitter + proximity + hands-free triple technology) emitters.

SIMPLIFIED MANAGEMENT OF COMMUNITY INSTALLATIONS

By means of the User Plus programming kit, with:

- Database including all the equipment, emitters, cards and proximity keyrings delivered in each installation.
- Possibility of assigning reserve codes. It is possible to sell working emitters, cards and keyrings without having to visit the installation.
- Configuration of equipment parameters, for example prohibiting programming of devices by radio or manually.

ref.5258

5258 USERPLUS RF-PROX PROGRAMMING KIT

1. AXESKEY

All receivers and controllers allow hands-free operation for vehicles and users, with built-in HF antenna and the pertinent identifiers.

RECEIVERS (868Mhz)

5250 AXESKEY BASIC-2B RF RECEIVER. 12/24V

Capacity up to 500 users. Power supply 12Vac/dc. 2 relay outputs, *(pulse, pulse/bistable). Each code can trigger a single relay or both at once.

5266 WIEGAND RF RECEIVER

RF-WIEGAND interface can make your 868 MHz range compatible by means of WIEGAND output with access control system. AC Plus, Wincom Plus and IP_AXES.

ref.5250 / ref.5266

ref.5251 / ref.5252

AXESKEY Plus controllers add the connection of up to 3 SLIM proximity readers, ref.5255 to the BASIC features. Extension up to 2 additional POT-TRO manually adjustable relays, ref.5267.

5251 AXESKEY PLUS-2B RF CONTROLLER. 12/24V

5252 AXESKEY PLUS-2 RF CONTROLLER. 230V

ACCESS CONTROL

AXESKEY EXTRA controllers have a removable memory card for both codes and events.

5253 AXESKEY EXTRA-500 RF CONTROLLER. 230V
Password-protected manual programming. 1 relay output (1-30sg or bistable). 3 additional PROG-TSA relays, ref.5268. Card for up to 1000 events, ref.5269 (optional). Allows connection of up to 2 SLIM readers, ref.5255.

5254 AXESKEY EXTRA-5K RF CONTROLLER. 12/24V
Programming with UserPlus. Maximum 2 readers WIEGAND 26 or up to 4 SLIM readers, ref. 5255 with extra power supply. Manages up to 5000 users and 5000 events. 2 relay outputs. Allows card expiry and discount-prepayment function.

5271 MEMORY 500 (PLUS_BASIC) CARD

5272 MEMORY 500C (EXTRA-500) CARD

* pulse response = monostable

CENTRALIZED

The Centralised Access Control System (AC PLUS) gives an answer to complex installations with several accesses and advanced managing and automation functions. A Central Unit and a highly intuitive Windows software are required to program the installation with the PC. The connection between the PC and the installation can be direct to the installation (RS-485) or remote (IP). The data can be updated and the installation monitored from different PCs (multi-station).

CENTRALISATION

The centralisation of the system contains: Central Unit, power supply, battery and the necessary module for communications with the PC. An emergency power supply is recommended. In installations with large distances, it will be necessary to install additional power supplies at the access in order to avoid voltage drops in the cabling.

ref.4410

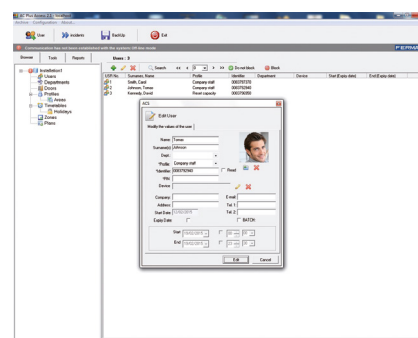

4410 AC PLUS CENTRAL UNIT

For advanced access control functions and home automation only. Each Central Unit allows:

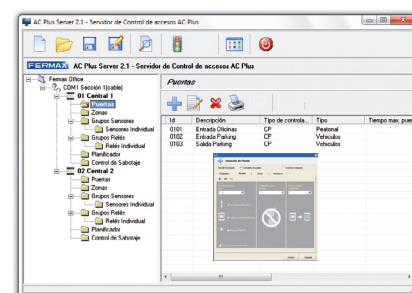

- 2.048 users.
- 32 doors. It can manage one reader to enter and another to exit.
- 64 groups of users (profiles).
- 4 special profiles without restrictions.
- 32 areas. Defines the doors to which access is permitted.
- 32 timetables. It is possible to define holidays.
- Recording of the last 3.000 incidents (entries, exits, accesses denied, alerts, etc.)
- Capable to manage 1.000 intercommunication panels/1.000 sensors/1.000 relays.

Includes 2 software PC for programming and system management:

- **AC PLUS SERVER.** To configure the hardware (central unit, readers, decoders, etc).
- **AC PLUS ACCESS.** To manage the users and the restrictions.

Software Access

Software Server

4813 POWER SUPPLY. 12Vdc/2A. DIN6

General power supply. 1 power supply for each 6 accesses is required.

2060 BATTERY ADAPTOR. 12Vdc

Installed between the power supply and the system. It has a connector to link with an external PB-Acid battery.

2339 MDS REPEATER

Necessary for distances of over 1.200m between door controllers or decoders and the central unit. Format DIN10.

ref.4813

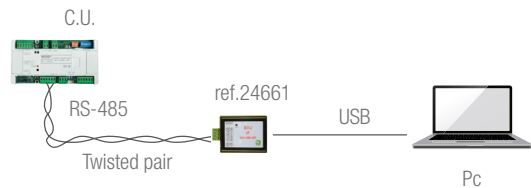

ref.2339

ACCESS CONTROL

PC CONNECTION ACCESSORIES

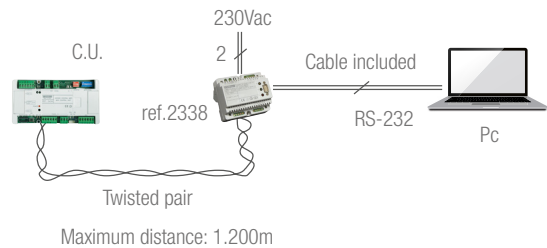

24661 USB to RS-485 PC ADAPTOR

- Connection between PC (USB) and Guard Unit.
- Direct power supply from USB.
- Drivers included.

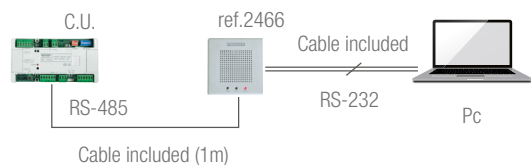

2338 RS-232 to RS-485 PC ADAPTOR

- Connection between Pc and Central Unit (or network of centrals).
- Allows for the connection of the modem to the Central Unit in case of remote management.
- Connection to PC: RS-232. Max.: 30m (cable included: 3m).
- Connection to Central: RS-485 (twisted pair). Max.: 1.200m.
- DIN6 format. Power supply: 230Vac.

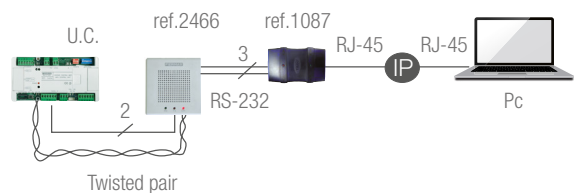

2466 PC DECODER PROGRAMMING MODULE

- Programming addresses and parameters to decoders from PC.
- Maintenance of installations that have no permanently connected PC, as an installer tool.
- Includes RS-232 cable with DB-9 connector for PC linkup.
- Includes RS-232 cable with DB-9 connector for PC connection.

1087 IP REMOTE MANAGEMENT MODULE

- Communication between management station and the installation using IT network (Ethernet), avoiding additional wiring.
- Connection to Central Unit by programmer (ref.2466).
- An IP address must be configured for network connection using the built-in software.
- Remote management via internet if allowed by protective devices (Firewall) in the IT installation (specialist staff needed to configure router for internet access).
- Power supply: 230Vac via adapter (included).
- Ethernet connection RJ4.

FIBER OPTIC ACCESSORIES

1345 FIBER OPTICS CONVERTER

Allows MDS/AC+ signals transmissions (audio, video and data) by means a fiber optic cable (monomode fiber with FC/PC connectors). Advantages: links up to 5 km, noise immunity and discharges isolation. Includes: transmitter (TX), receiver (RX) and two power supplies. It can be used in any communication point of an MDS system.

READERS WITH INTEGRATED CONTROLLED

6992 CITYLINE PROXIMITY READER

6994 CITYLINE AC PLUS KEYPAD

Includes flush box S1 ref.8948: 115x114x45.

ref.6994

ref.6995

7440 SKYLINE PROXIMITY READER V

7453 SKYLINE AC PLUS + KEYPAD W

7457 SKYLINE AC PLUS + DIRECT KEYPAD W

For access control combinations of keypad with proximity and fingerprint readers.

ref.7440

ref.7453/ref.7457

5472 MARINE PROXIMITY READER

4696 MARINE AC PLUS KEYPAD

Flush box ST1 included (ref.4641): 130x160x55.

ref.5472

ref.4696

1065 DIGITAL RF RECEIVER

24651 DIGITAL RF EMITTER

ref.1065

ref.24651

ACCESSORIES

These controllers require an external relay to activate a lock-release with consumption greater than 500mA or inverted functioning.

2013 ADDITIONAL FUNCTIONS RELAY

3491 DIN RELAY. 12VDC/12A

2430 8 MDS/AC+ RELAY DECODER

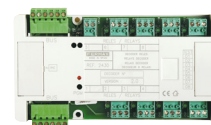

Secure activation of the lock-release from the inside. The 8 outputs are programmable from the software DECOWIN (free at www.fermax.com).

2429 8 MDS/AC+ SENSOR DECODER

It handles 8 sensors: door contacts, presence, flooding... The 8 inputs are programmable from the software DECOWIN (free at www.fermax.com).

ref.2013

ref.2430

ACCESS CONTROL

READERS WITH EXTERNAL CONTROLLER

Recommended for higher security applications, where the electronics are located in an independent controller (ref.4420). One per reader is required.

4420 DOOR CONTROLLER

Accepts Wiegand-26 bit or magstrip (Data/Clock) readers. Incorporates one relay to activate the lock release and another for auxiliary functions. Accepts a reader for entrance and another for exit, exit button, door sensor, free access button. Is installed in 100x100mm boxes.

6936 SKYLINE FINGERPRINT READER W

6935 CITYLINE FINGERPRINT READER

6937 CITYLINE FINGERPRINT/KEYPAD READER

5482 MARINE FINGERPRINT READER

ADVANCE CENTRALIZED

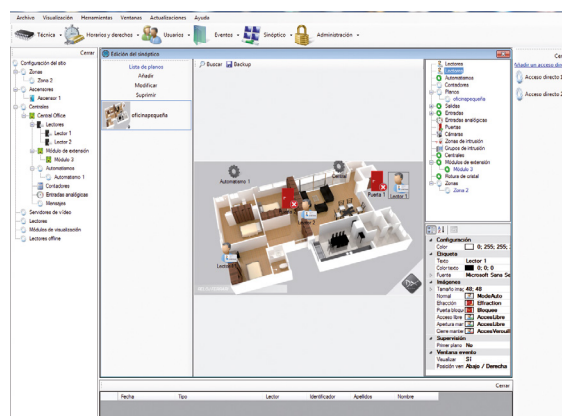

IP AXES

The IP_AXES Access Control system is suitable for both centralized and distributed systems thanks to the IP_AXES 1/2 central controller, which can connect up to 42 readers with S-BUS, WIEGAND and Clock&Data protocols with the same integrated IP address on the computer.

- 15.000 users and 15.000 events.
- 128 time zones.
- 64 IP_AXES 1/2 Controllers in a single installation.
- Extensions by RS-485 up to 10 expansion modules, which can be:
 - IP_AXES 4 expansion module up to 4 doors.
 - IP_AXES I/O expansion module with 8 sensor inputs and 8 relay outputs.

The software that runs the installation via TCP/IP is totally intuitive.

- Installation and user creation wizard.
- Databases: Access and SQL Server.
- Local anti-passback (OFFLINE and ONLINE) / global (ONLINE).
- Discounting.
- E-Mail alert sending.
- Guest management.
- Automatic devices.
- Elevator management.
- Enables real-time site map viewing/remote control for status of: doors, readers, analogue entrances, exits and counters.
- Automatic IP address detection.
- Voice messages.
- Self-learning cards and identifiers.
- Manual and graphic entry of time slots and holidays. 10 time slots per day. Holiday periods list.
- Multiple identifiers per user.
- Creation of direct accesses and automatic systems.
- Additional licences are required for more than 2 readers, depending on the number of readers in the installation.
- Present user management.
- Presence time. Total hours per user.

CENTRAL

5280 IP_AXES 1/2 CENTRAL CONTROLLER

Central controller allows to the connection of one or two doors with WIEGAND readers and extension up to 10 expansion modules by RS-485, maximum distance 750mts. Requires 12Vdc power supply, ref.4813. Power supply 12Vdc/2A recommended. Dimensions: 160(W)x120(H)x30(D)mm.

A 12Vac electrical lock release is required (ref.30711).

DUOX VIDEO. 1/W KIT

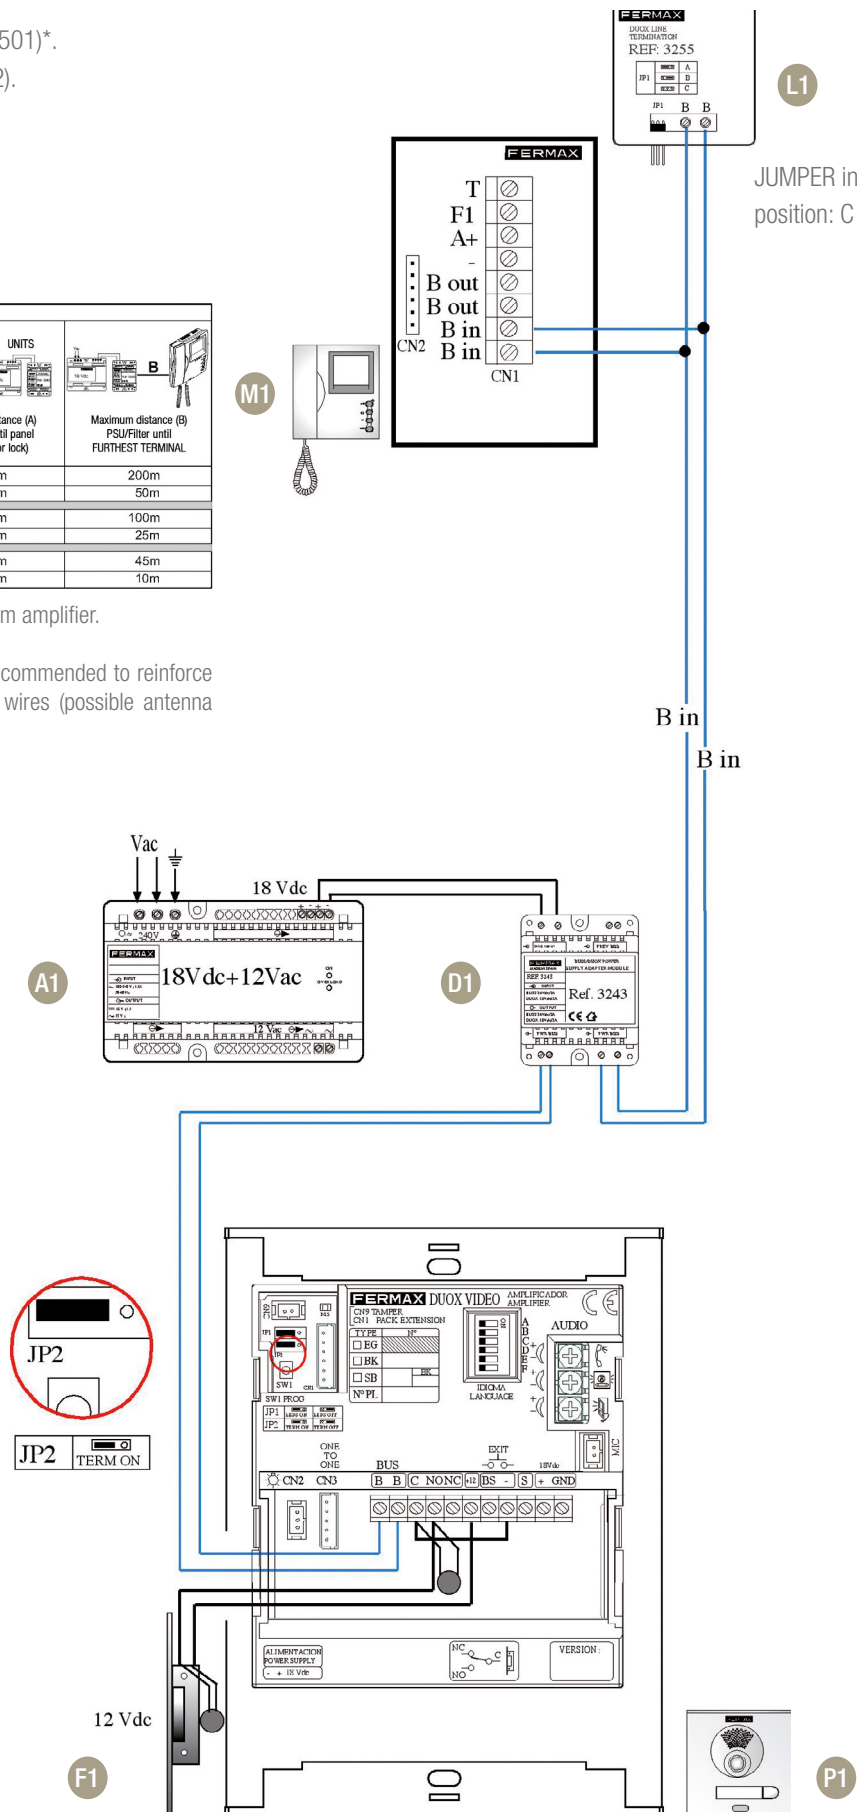

- P1 DUOX CITYLINE panel.
- F1 Electrical lock release 12Vac/dc (ref.67501)*.
- A1 Power supply 18Vdc + 12Vac (ref.4812).
- D1 DUOX filter (ref.3244).
- M1 DUOX LOFT monitor (ref.3412).
- L1 Line adaptor (ref.3255).

*Not included in kit.

1/W AND 2/W DUOX VIDEO KIT INSTALLATION				
SECTION CABLE	TERMINALS per home without additional PSU	Maximum distance (A) PSU/Filter until panel (panel+door lock (i))	Maximum distance (A) PSU/Filter until panel (without door lock)	Maximum distance (B) PSU/Filter until FURTHEST TERMINAL
2 x 1 mm ²	1	50m	90m	200m

2 x 0.2mm ²	10m	10m	36m	40	24	70m	60 (20/ per riser)

Table with up to 6 apartments for floor.

(i) For 12 Vdc door lock max. 250 mA supplied from amplifier.

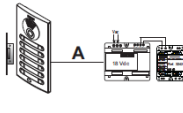

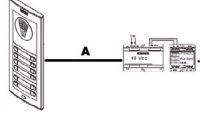

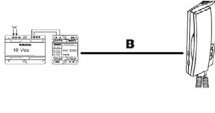

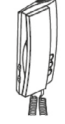

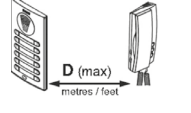

(ii) Each additional PSU+filter allows for the expansion of the system in distance and terminals according to the table.

(iii) Longer distances can be reached via regenerators.

In case of installations which do not fit these parameters, consult our Technical Department: tec@fermax.com

Maximum derivation distance: 20m. Additional monitor: Power supply required.

COMMERCIAL CONDITIONS OF SALE

The present commercial conditions of sale shall be applicable to all sales or deliveries carried out by FERMAX, unless otherwise agreed in writing with the Buyer.

ORDERS

Orders shall be processed exclusively through authorized distributors.

DELIVERIES

The delivery dates agreed with FERMAX shall be considered approximate. FERMAX undertakes to do its utmost to comply with the agreed delivery dates, always provided the Buyer facilitates all correct information relating to the order and the delivery with sufficient anticipation.

The delivery term shall be reasonably extended when causes beyond the decision and control of FERMAX prevent to comply with the agreed delivery date.

ACCEPTANCE OF GOODS

The Buyer shall review and inspect the goods, as to quality and quantity, within the maximum period of five days after the date of delivery.

OWNERSHIP RESERVE AND RISKS

FERMAX shall continue to be the lawful owner of the Products supplied until the full payment of the agreed amounts.

Notwithstanding the above, the risks inherent to the Products supplied shall be conveyed to the Buyer from the moment the Products are delivered by FERMAX.

PRICES

Prices do not include any indirect taxes applicable according to the legislation in force from time to time. Other taxes, duties and charges that must be applied shall be borne by the Buyer, unless otherwise agreed in writing with FERMAX.

SHIPPING COSTS

Prices established in offers, orders, catalogues and other documents are EXWORKS prices.

Prices do not include the shipping cost except otherwise clearly indicated.

PAYMENT

Unless FERMAX and the Buyer agreed otherwise in writing, payments shall be made within the periods established by the legislation in force.

FERMAX may require the necessary guarantees to assure that the Buyer complies with all agreed payment terms and conditions, if appropriate considering the financial position of the latter.

GUARANTEES

FERMAX shall provide guarantee during a period of TWO (2) YEARS following the date of the sale invoice for any original defects in the Products, subject to the terms and conditions established in the legislation in force and in these Commercial Conditions of Sale. This guarantee shall be processed by the Official Technical Services and Official Distributors of FERMAX, regardless the location of purchase.

The Products processed for guarantee that do not comply with the provisions set forth in the previous paragraph shall be treated as out of guarantee. FERMAX reserves the right to apply the appropriate measures to compensate any possible damages caused. Any deficiencies beyond the control of FERMAX shall be excluded from the guarantee and liability of the latter, specially when they are the result of normal wear, false information provided by the Buyer, inadequate maintenance, failure to observe the operating instructions, use of any inappropriate material, influence of chemical or electrolytic action or other similar causes. The guarantee of FERMAX shall be subject to the appropriate compliance with all payment terms and conditions agreed with the Buyer.

DAMAGES

Under no circumstances shall the Buyer be authorized to make contractual or extracontractual claims for damages deriving from, but not limited to, the loss of production, use, orders, profits, nor for any other direct, indirect or consequential damages.

FERMAX shall be only liable to compensate the client for the costs associated to repairing the deficiencies or incidents occurred during the process of supplying the goods that are attributable to the former.

RETURNS

All returns of material must attach a Return Authorization Document to be obtained from the Sales Department.

All materials must be in mint condition and include the original packaging before any return is authorized. Depreciations may be applied according to the corresponding policies in force.

FERMAX reserves the right to modify these commercial conditions of sale, as well as the prices of the Products. The technical and aesthetic characteristics of the Products may be modified from time to time. The graphic representations included are merely for illustrative purposes. FERMAX ® is a registered trademark. All intellectual property and license rights reserved.
